ASSIMULATES DEATH!

And Hides in the Woods for Six Months so That His Wife Can Collect an Insurance.

RALEIGH, N. C., May 28.—Twelve months ago James Dillon, a well-known citizen of Tyrrell county, insured his life for $3,000 in the Connecticut Mutual Life Insurance company. Some time after he fell from a boat half a mile from shore and yelled loudly for help to a man a quarter of a mile away. When the man responded Dillon secretely swam ashore and could not be seen. The man whose assistance he asked supposed he was drowned and was perfectly willing to swear to it. Notice of Dillon's death was sent to the company. It refused to pay the insurance. Action was brought by Dillon's wife and the case stood for trial at the court last week. The widow alleged that he was drowned.

Ten day's ago a body was found near the place where he had been seen to sink in the water. The body was identified by twenty-five persons as that of Dillon. At court, counsel for the wife took a non-suit because the body had not been found. There is no doubt that the company would have paid the money, but last Friday, to the surprise of every one, Dillon, himself, returned, safe and sound, to Columbia. His statement is most remarkable. He says he swam ashore the day he overturned the boat, put his hat in it, and left the boat half full of water. He determined to hide in the woods so that his wife could get the insurance money. He kept in the great swamps for five months, when he found the body of a drowned man floating in the Alligator river.

He removed the hair from the head so as to make it bald, and taking his own whiskers, put them in the decomposing flesh of the corpse. He knocked out two of the front teeth of the dead man and removing the clothing from the corpse, dressed it in the clothes he had worn on the day of disappearance. At night he conveyed the body to the place where he was supposed to have been drowned. Subsequently hearing of the non-suit he thought it put an end to his claim and that there was no hope of collecting the money and he returned home.

ALABAMA'S POLITICAL POT

Is Boiling Hot--The Democratic State Convention To-Day.

MONTGOMERY, Ala., May 28.—Alabama is in the midst of the bitterest political campaign since 1874. The state democratic convention met at noon to day. There are five candidates for governor in the race, Col. Thos. G. Jones, of Montgomery; Capt. Jos. F. Johnston, of Birmingham; Capt. James Cook, of Jacksonville; Judge Wm. A. Robertson, of Huntsville, and R. F. Kolb, of Eufault, the present agricultural commissioner of the state and the Farmers' alliance candidate for governor. He has posed as the farmers' candidate and expects to win on that ticket.

The convention is composed of 526 delegates and it is generally conceded that Kolb will have over 200 votes on the first ballot, which puts him ahead of any of the others. War has been made on Kolb by the democratic press and leaders on account of his efforts to arraign the farmers against all other classes. The alliance in this state is over eighty thousand strong, and the majority of the members will support Kolb, and if the order is strong enough to nominate him, he will be the next governor.

MAY HAVE NEEDED IT.

Indianapolis "Shook Up" by Nine Earthquake Shocks.

INDIANAPOLIS, May 28.—Earthquake shocks were felt here at an early hour yesterday morning. Fifteen occupants of a frame building at the Vandalia transfer yards experienced an unusual shock, accompanied by a shaking of the building and a sound like the rushing of a volume of water beneath the building. The first shock was swiftly followed by a second and so on until nine distinct shocks had been felt by the then thoroughly frightened inmates. A peculiar feature of the disturbance was its being heard by yard men some distance away from the building and they also thought they could discern a sound similar to the rushing of water. It is supposed a large subterranean body of water lying underneath that portion of the city had been greatly agitated by some unknown cause.

BLUE AND GRAY

Mingle Together in a Re-union at Vicksburg--The Blue Given the Post of Honor.

VICKSBURG, Miss., May 28.—The re-union of the blue and the gray yesterday was a success, and was attended by thousands of people. In the parade the Grand Army of the Republic occupied the post of honor, followed by the confederate veterans. Speeches were made by Governor Stone, of Mississippi, and a number of prominent northern and and southern veterans.

The Weather.

WASHINGTON, May 28.—For Indiana: Increasing cloudiness and rains, with local storms; warmer to-day; cooler by Thursday afternoon; southerly winds.

MARY DIDN'T SPEAK.

An Equal Suffragist Advocate Prevented From Holding a Meeting.

TRIPP, S. D., May 28.—Mrs. Mary Seymour Howell, of New York, who, in company with Susan B. Anthony, is working in the interest of equal suffrage was here yesterday, with the expectation of delivering a lecture last evening. On her arrival she was met by a delegation, mostly Russians, and told that they did not want to hear any woman preach, and she would not be allowed to speak in the school house. This aroused the indignation of other citizens, and they determined to open the school house to her. The situation, however, became so threatening as evening approached, that she was afraid to remain in town, and departed for Parkston. Feeling runs very high.

SMALL POX IS THERE.

The Dreaded Malady Raging in Dansville, New York.

MOUNT MORRIS, N. Y., May 28.—At a meeting of the village board of health yesterday an ordinance was passed forbidding any person belonging in Dansville from visiting this village, or any person from here going to Dansville during the prevalence of the small pox in that village under a penalty of $1,000 or six months imprisonment. The small pox is reported spreading in Dansville, and four deaths are reported.

SPRINGFIELD, Ill, May 28.—There is an epidemic of diphtheria at Maringo, McHenry county. The state board of health has information of three deaths in one family. The cause of the disease is supposed to be a contaminated water supply.

MAY HAVE ELOPED.

A Handsome Blonde Missing From Her Home.

MACOMB, Ill., May 28.—Residents of the village of Industry, this county, are greatly excited over the mysterious disappearance of Ella Corpell, a handsame young woman, who left home ten days ago to visit a sister at Bowen, Ill. She was traced on the Wabash railroad to near Keokuk, where all clues were lost. A reward of $50 is offered for information as to her whereabouts. She is about twenty years of age and a blonde.

WENT RAVING MAD

Because His Wife Ran Away With Another Man.

DETROIT, May 28.—Alvis Miesches brooded so much over his wife's running away with Adam Bloch, a supposed friend, that he went insane yesterday and had to be locked up to prevent him from murdering his seven children. He is raving mad, and spends his time cursing Bloch and threatening to kill his children. The police are looking for Bloch.

IT IS NOT TRUE.

The Manhattan Mutual Fire Insurance is not in a Bad Way.

MINNEAPOLIS, Minn., May 28.—President C. H. Spencer, of the Manhattan Mutual Fire Insurance company of New York, denies absolutely that the company is in a bad way and liable to collapse. He said the report was due wholly to statements by Fitzgerald, who had sworn vengeance for having his head cut off as manager.

NATIONAL CONFERENCE.

The Greenbackers Will Meet at Indianapolis, August 27.

INDIANAPOLIS, Ind., May 28.—A call was issued yesterday for a greenback conference to be held in Tomlinson hall, Indianapolis, at noon, Wednesday, August 27.

Wants to Settle.

ST. LOUIS, Mo., May 28.—Mansfield King, the man who robbed President Moffat, of the Denver bank, of $21,000, says he has made a proposition to the bank officials to return the money and pay all the expense they have incurred in the matter providing they agree not to prosecute him. Nothing has been heard from Denver in regard to the acceptance of the proposition as yet.

Chicago Markets.

CHICAGO, May 28.—Wheat: May ——; June, 93¾; July, 94. Corn: June, 33⅛@34; July, 34⅛. Oats: May, 29; June, 27¼; July, 26⅝. Pork: June, $13.20; July, 13.35. Lard: $6.05; July, $6.17½; September, $6.37½. Ribs: July, $5.27½@5.30; September, $5.47½.

Badly Wrecked.

COLUMBIA, S. C., May 28.—Passenger train No. 51, which left here on the Atlantic Coast line at 10:25 Monday night for Wellington, was badly wrecked fifteen miles from Columbus. Only one hurt.

Prohibited the Sale of Liquor.

WASHINGTON, May 28.—Speaker Reed has temporarily prohibited the sale of liquor in the house restaurant. This may be modified, however, to permit drinks to be served at tables.

Lee's Monument.

RICHMOND, Va., May 28.—Flags and bunting envelop the houses along the principal streets to-day, the occasion being the Lee monument unveiling, which takes place to-morrow.

Prohibition Convention.

SYRACUSE, N. Y., May 28.—The "state amendment convention" of all prohibition societies of the state of New York, was called to order by Dr. H. Mann, of Brooklyn, this morning.

DECKED WITH FLOWERS!

The Floral Tributes That Greeted Randall's Successor When He Entered Congress To-day.

WASHINGTON, May 28.—Two desks in the house of representatives were hardly large enough to hold the floral tributes that greeted the eyes of Charles A. Vaux, of Philadelphia, the successor to the late Samuel J. Randall, when he entered the house this morning, preparatory to taking his oath as a member of congress.

The principal piece was a magnificent representation in roses and immortelles of the coat of arms of the city of Philadelphia, presented by the board of directors of the eastern Penitentiary, of which Mr. Vaux was a member. Several bouquets of bride, and other varieties of roses were also among the tributes received.

Speaker Reed was in his chair and called the house to order at 12 m. Mr. O'Neil, of Pennsylvania, presented the credentials of Mr. Vaux, Mr. Randall's successor as representative from the third district of Pennsylvania, and escorted him to the bar of the house, where he affirmed. He took his seat amid applause. Mr. Vaux was the recipient of many congratulations and friendly greetings.

The house passed a number of bills and did routine business.

It is the intention of the house leaders to have the house adjourn over from Thursday until Monday, on account of Decoration day.

In the senate to-day after transaction of routine business the senate bill subjecting imported liquors to the law of the several states was again taken up. Mr. Morgan spoke in opposition to the measure, basing his argument on constitutional grounds.

BRUTALLY ASSASSINATED.

A Mississippi Merchant Meets a Cruel Death--Other Crimes.

JACKSON, Miss., May 28.—Mr. A. M. Kimball, a prominent merchant of this city, was assassinated near his residence early yesterday morning. The killing was done with a stick, or some blunt instrument. The key to his store was missing and the store had been broken open, but nothing missing could be discovered. One theory is that Kimball caught burglars in the act of robbing his store and was killed in the fight that followed.

ST. LOUIS, Mo., May 28.—Henry Hall, a farm hand working near Silston, Mo., was shot dead yesterday by a fellow farm hand named Jacob Haines. The men had apparently been close friends.

SPRINGFIELD, Ill., May 28.—Police Officer Killan Laurer last night shot and instantly killed Wm. Koch, aged 19 years. Koch, who had been arrested by the officer for a misdemeanor, started to run away.

WHITE CAPS

Commit Their Depredations in Southern Indiana.

LOUISVILLE, Ky., May 28.—A band of White Caps, thirty in number, visited Corridon, Ind., at 1 o'clock this morning and proceeded to the house occupied by Lucy Neyes and Jane Flay, two women of questionable reputation.

The women were deagged from bed, taken to the edge of the town, tied to trees and flogged until both had fainted from pain. Their thongs were then cut and the white caps departed, leaving their victims where they had fallen, at the foot of the trees, both insensible. Besides their general bad character, the two women were suspected of having set recent fires at the fair grounds near Corridon.

COLORED CONGREGATION.

A New Church Society Organized in This City.

Last Sunday a new colored congregation was organized in this city to be known as the Second Baptist church. The meeting was held at the W. C. T. U. headquarters on Harrison street, where, if suitable arrangements can be effected, services will be held regularly each Sabbath at 10:30 a. m., and 7:30 p. m. William Ridley will officiate as pastor.

ANDERSONVILLE PRISON.

The Stockade Purchased by the Georgia G. A. R.

AMERICUS, Ga., May 28.—The Andersonville prison stockade has been purchased by the Georgia encampment, G. A. R., acting for the national body.

A Big Thief.

WATERBURY, Conn., May 28—An investigation of the books of the Smith & Griggs company show that Geo. Roberts, the chief bookbseper, who was arrested several days ago for embezzlement, has stolen in all, $30,000. He began stealing in 1871, just after he entered the employ of the concern, and, since then has taken large sums each year.

Instantly Killed.

SILVER CITY, N. M., May 28.—Theo. Lyons, of this city, shot and instantly killed John R. McManigle last night. Lyons is a member of the firm of Lyons & Campbell, who are among the heaviest cattle owners in southern New Mexico. He claims to have found McManigle and Mrs. Lyons in a compromising position. All are prominent people.

HONORS TO THE DEAD.

An Outline of the Program That Will be Arranged for Decoration Day.

The committee of arrangements for the exercises of Memorial day will hold a meeting to-night at Sion S. Bass post hall to complete the program. The indications are that about thirty societies and organizations will turn out. The city officers and common council will appear in a body, and also the police force.

The following organizations, among others, will be in the parade: G. A. R. posts—Sion S. Bass, Anthony Wayne and George Humphrey; Union Veteran Legion, Sons of Veterans, Fort Wayne and Summit City lodges of the Ancient Order of United Workmen, Phoenix, Fort Wayne and Uniform Rank lodges Knights of Pythias; Emmett Commandery C. B. L., Knights of St. Charles, Wayne Commandery C. B. L., Patriarch Militant, Patriarchal Circle, Carpenters union and postoffice employes.

The City band and the First Regiment bands will discourse strains as the procession moves. The line of march will be over the principal streets along the line. The procession will move about 1 o'clock p. m. and after the march there will be appropriate exercises at Lindenwood. The merchants will be requested to close their doors in the afternoon. The city and county offices will be closed and business generally suspended as Decoration Day is a legal holiday.

THE CARPENTERS.

The Seriousness of the Situation Unless the Difficulty is Settled.

The difficulty between the carpenters and the building contractors of the city is assuming a serious phase, and unless something is done to prevent a wider breach it may result in a general tie-up of the building trade in Fort Wayne. At a joint meeting of the carpenters and the Trades and Labor council last night the situation was discussed, and some of the speakers went so far as to advocate a strike of all the unions engaged in the industries in order to bring the master builders to terms, but older and wiser heads deprecated such action and said it ought only to be adopted as a last resort. It was, decided, to call a meeting of the various trades unions and lay the matter before them for consideration.

In conversation with a prominent member of one of the labor unions today, that gentleman said to THE SENTINEL reporter: "Yes, a general tie-up of the building trades is possible as a result of this trouble. A general strike need not be ordered. The thing can be brought about in another way. The brick masons, the hod carriers, the plasterers, the painters, the tinners, the plumbers and other trades are all dependent upon the work of the carpenters. The carpenters must do their work before the other trades can proceed, and if this is not done you can easily see how building must come to a stand-still. The carpenters have made many concessions and I know the general sentiment is now that they will stand firmly for their remaining rights. We have already made many concessions, but were we to concede the points now demanded by the master carpenters it would amount to a virtual giving up of our organization. They claim the right to have a union and they ought certainly to concede us the same right."

A tinner's and sheet iron workers union was organized last evening. The plasterers' union will hold a meeting this evening and discuss the disagreement with the master builders.

BOY HURT.

A Horse Upsets a Wagon, Seriously Injuring Arthur Stine.

Arthur Stine, a youth in the employ of B. L. Auger, the florist, was thrown from a wagon and quite seriously injured this morning. While he was driving along South Broadway near Nestel's nursery, the vehicle collided with a sand wagon, and the horse becoming frightened, turned short and upset the wagon. The young man's lower limbs were injured, one of them being fractured. He was conveyed to his home on Williams street where Dr. Myers put a plaster of paris bandage on the broken limb.

THREE ACCIDENTS.

Brakeman Reed Badly Squeezed—Kicked by a Horse—Finger Mashed.

W. D. Reed, a brakeman on the Fort Wayne road, was badly squeezed between the deadwoods and probably fatally injured. Internal trouble. The man lives at 331 Hoagland avenue, where he was taken to-day.

George James, living on South Wayne avenue, was kicked in the face by a horse to-day. Bad injury, but no fracture.

C. Rodenbeck, boiler-maker in the Pittsburg shop, had a finger mashed today.

A Card of Thanks.

The family and friends of the late Mrs. Joseph Grothaus, the daughter of Barney Roth, desire to return thanks to friends and neighbors, and to Mr. John H. Bass, Miss Rohyans and Mrs. Amelia Farrel for handsome floral decorations.

THE EIGHT-HOUR FIGHT.

Over Forty Thousand Carpenters Said to Have Been Benefited by it.

In conversing last evening with a prominent member of the Brotherhood of Carpenters on the general effect of the movement of the trade for an eight hour day throughout the country, that gentleman said to a SENTINEL reporter: "Up to date we have suffered no defeat. The movement for shorter hours in our trade caused 141 strikes, involving 208 unions and 54,852 men—unionists and non-unionists. They resulted as follows: In twenty-seven cities and towns the eight-hour day was won for 23,355 men; in seventy-two cities and towns we established the nine-hour rule, benefitting 14,180 men. The wages of over twenty-six hundred men were advanced. The principal points where the eight-hour rule was adopted are New York, Brooklyn, Chicago, Milwaukee, St. Louis, Denver, San Francisco, San Antonia, Tex., and Indianapolis. Some non-union carpenters sided with us and did excellent work. The strike cost our general body only $35,628 and the local unions about the same; twenty-four strikes are still in progress. The struggle added forty-six new unions, with 11,241 members, to the Brotherhood, which now has 622 branches and 67,200 members."

MASTER MASONS MEET.

Representatives of Twenty-five Thousand Members Meet at Indianapolis.

Grand Lodge, F. and A. Masons of the state of Indiana, met at Indianapolis yesterday, with Thomas B. Long, of Terre Haute, grand master, in the chair, and all the grand officers in their places, except Roger Parry, grand tyler, who is confined to his bed by sickness. This is the sixty-ninth annual meeting, and is the seventy-third year of the grand lodge. A convention to organize the grand lodge was held at Corydon, December 3, 1817, and the grand lodge was organized and first officers elected and installed at Madison, January 13, 1818. The grand lodge has been presided over by forty grand masters, fifteen of whom are now living. Hon. A. C. Downey, of Rising Sun, is No. 20 in the list of past grand masters, and ranks all those living. The grand lodge has had fourteen grand secretaries, only two of whom are now living.

Grand Master Thomas B. Long, of Terre Haute, delivered the annual address.

The Grand Treasurer Martin H. Rice, reported a balance of $13,175.67 on hand. Wm. H. Smythe, grand secretary, reported cash receipts, including balance on hand, last year, $37,086.96, and the expenditures, $2,553.45; and receipts and disbursements to the Clay county miners $8,705.85. There are at present 23,896 affiliating Master Masons in the state. The present number of chartered lodges is 464, and the average membership fifty one. Terre Haute lodge, No. 19, has 325 members, and is the largest lodge in the state.

During the year the Grand Master granted dispensations for the organization of lodges of Mount Vernon, Sidney, Canaan, Hanover and Carthage. After the submission of the reports the Grand Master appointed the standing committees. The lodge will adjourn to-day.

WARM DISCUSSIONS.

Councilmen Boltz and Cody Fight Against the Steam Roller--The Police Commission Talks.

There were two warm discussions at the council chamber last night. One was caused by Councilmen Cody and Boltz urging that the new steam roller be not accepted. After fully three-quarters of an hour's argument, City Attorney Colerick calmly stepped before the body and informed them that the machine had already been accepted by a legally written contract and must, of course, be paid for. The silence then, was painful, and the roller was accepted.

Another lively and interesting discussion was one caused by Councilman Boltz objecting to a section in the police commissioner's report wherein Officer Eric Richter was suspended from the police force for thirty days. Mr. Boltz wanted to know why Officer Stoll was not suspended too. Both were eating frogs from the same dish, he said, and drinking wine from the same bottle at the Globe restaurant in company with Lieutenant Leonard Fuchshober, who was discharged from the force. This was too much for some of the police commission who simultaneously jumped to their feet. Councilman Michael insisted that certain affidavits relating to the case be read to the council to show that the members of the police board were honest in their action. Councilman Gordon, also a member, addressed the meeting in emphatic and eloquent terms. Councilman Meyer, a member, demanded that an investigation be made in Stoll's case and Gordon forthwith filed a resolution demanding that Mr. Boltz produce certain testimony to bear on the case, which resolution was adopted.

These two resolutions took nearly as many hours time.

Hon. Jack Landers, of Indianapolis, is in the city.

HER LIFE EBBS AWAY!

Mrs. John Smith Dying From Blood Poisoning Caused by an Injury and "Baby" Will be Motherless.

In a house on the Godfrey farm southwest of the city dwells a dairyman named John Smith, his wife and several children. In this house the wife and mother lies on her death bed, while in the arms of a nurse rests a babe, born last Sunday.

Four weeks ago Mrs. Smith fell through the porch floor at their home and sustained a fracture to her lower limb below the knee, which injury was unattended by a physician until last Sunday when her healthy baby boy was born. The physicians at that time found that the limb was mortified and they recommended amputation at the hip be made as the only possible means of saving the patient's life. This was objected to and now Mrs. Smith is suffering the tortures of a slow death by blood poison. Had the amputation of the limb been performed at the proper time the life of the dying woman might have been saved.

VICTORY FOR OUR BOYS.

The Fort Waynes Win the Second Game With Bluffton--Other Games.

Yesterday at Bluffton, the base ball club of that place was beaten by Fort Wayne by a score of 15 to 13. The game was a poor one, but served to buoy up the spirits of our enthusiasts, who were crushed by the previous day's defeat. The battery for Fort Wayne was McCarthy and Ferris. Cates and Hines were in the points for Bluffton, but after the third inning Aydelotte was called in to pitch. In the sixth inning our boys succeeded in making six runs.

The score was as follows:

Fort Wayne.....2 2 5 0 0 6 0 0 *—15
Bluffton.....4 2 0 0 0 5 0 0 2—13

Batteries—Cates, Aydelotte and Hines; McCarty and Ferris.

Bases on Balls—By Cates, 5; by Aydelotte, 1; by McCarty, 2.

Base Hits—Fort Waynes, 10; Bluffton, 14.

Errors—Fort Waynes, 11; Bluffton, 10.

Two-base Hits—Bruton, Reeder 2, Ogden and Cates.

Three-base Hits—Boseker 2.

Struck Out—By McCarty, 5; by Cates, 2; by Aydelotte, 2.

STATE LEAGUE.

Elkhart won of Marion in thirteen innings yesterday by a score of 7 to 5; Kokomo defeated Peru by a score of 13 to 6; Anderson was defeated by Muncie by a score of 7 to 0.

THE BIG GAMES.

Brotherhood—At New York, New York 14, Cleveland 2; at Philadelphia, Philadelphia 2, Buffalo 9; at Brooklyn, Brooklyn, 17, Pittsburg 7; at Boston, game postponed on account of rain.

National League—At New York, New York 4, Chicago 2; at Philadelphia, Philadelphia 8, Pittsburg 1; at Brooklyn, Brooklyn 4, Cleveland 1; Boston Cincinnati game postponed on account of rain.

American Association—At Rochester, Rochester 4, Toledo 7; at Syracuse, Syracuse 2, Louisville 3; at Philadelphia, Athletics 10, St. Louis 8; second game, Athletics 10, St. Louis 8.

NOTES.

Don't discourage our club.

Gallagher will play again to-day.

Fort Wayne is getting several new players.

Muncie and Fort Wayne at league park to-day.

There was a poor attendance at Bluffton yesterday.

Manager Billy Meyer is thirty-six years old to-day.

The game between the two bank nines will draw quite a crowd on Decoration Day.

O'Brien Conway and Daniel Donohoe will be the battery for the Irishtown base ball nine.

Muncie will play here again to-morrow. Bluffton will play two games here on Decoration day, and Anderson will be here Saturday and Monday.

The Standards were the victors in a game of ball played with the Well streets last Sunday, by a score of 16 to 9. Batteries, Standards, Jants and Smith; Well streets, Ower and Starke.

The batting order in to-day's game is as follows: Allen, third base; Quirk, second base; Scott, first base; Bruton, pitcher; Ferris, catcher; Downing, short stop; Ellery, left field; Gallagher, center field; Malone, right field; bench, McCarty and Cain.

Manager Meyer and Captain Scott have signed a star pitcher named Wheeler, of Brooklyn, N. Y., who is expected to arrive here to-morrow. Wheeler is a left-handed twirler and played in the Atlanta and New Jersey league, where he got a great reputation.

The game at Muncie Monday, which resulted 2 to 0 in favor of Anderson, was protested by the Muncie team on the ground that Hemming, Anderson's pitcher, was a Brotherhood man, and the umpire instructed all stakeholders to hold money until settled, which was done to day by Nick Young, of the National league, ruling that Hemming's work was legal. The backers of the Muncie team lose heavily. The game was a fine one. A telegram received from the secretary of the State league, says that Hemming has not been signed and the game can not count.

FIXES SALARIES.

The Common Council Pass a Fee and Salary Ordinance—Other Business Done.

The common council of the city of Fort Wayne met in the council chambers Tuesday evening, May 27th, A. D., 1890, in regular session, His Honor Mayor Harding in the chair and Rudy C. Reinewald, city clerk at the desk, and present the following members:

Ayes, 17, viz: Councilmen Boltz, Cody, Cran, Delagrange, Gruber, Gordon, Hilbrecht, Huser, Hilgemann, Meyer, Meyer, jr., Michael, Ofenloch, Scheffer, Scheid, Smith and Vordermark.

Absent 3, viz: Councilmen Dalman, Ely and Hazzard.

The minutes of the last regular and adjourned session having been delivered to the councilmen were on motion approved as published.

BILLS.

The following bills were on motion allowed:

Street commissioner's pay roll	$582 72
Chas. J. Rosenheimer, money advanced	14 95
Flushing sewers	45 00
Natural gas trench repairs	55 75
Park pay roll	93 00

The Barber Asphalt Paving Co. presented a bill amounting to $12,445.67, the balance due them on their estimate, and asked to have that amount paid them less the amount involved in the suit. Referred to committee on finance and city attorney.

The bill of G. W. Loag, county clerk for transcript amounting to $5.00 was referred to the committee on finance.

PETITIONS.

R. Lowry and ten others asked the city to pay C. Kramer $25.00 for sprinkling Court and Clinton streets. Referred to the committee on public grounds and buildings.

F. P. Randall and others, vestrymen of Trinity church, asked to have the tax assessed against the above named church remitted. Referred to the committee on assessment and taxes and city attorney.

C. C. Gumpper and 24 others asked to have an electric light placed at the corner of Calhoun and Brackenridge streets. Referred to the committee on street lights.

M. P. Longacre and 17 others asked to have a main sewer constructed on Rockhill street, commencing at the north line of Pritchard street, thence north on Rockhill to Main street, thence west on Main street to the St. Mary's river. Referred to the committee on sewers.

Joe W. Bell and 10 others asked that the sewer committee investigate the sewerage in that part of the city lying west of Union street and north of the Pittsburg railroad. Referred to the committee on sewers, board of health and civil engineer.

C. F. Barner and eight others asked to have the alley between Montgomery and Lewis street graded from Clay street to Monroe street. Referred to the committee on streets.

George W. Solliday and thirty others asked the council to have Wayne street from Harmer to Hanover street paved with cedar blocks. Referred to the committee on streets.

O. P. Parker asked to have a twelve-inch clay pipe sewer constructed on the north side of Duryea street commencing at the fifteen-inch sewer on Fairfield avenue, thence east along Duryea streeet to Hoagland avenue. Referred to the committee on sewers.

Henry Smith and four others asked that a fifteen inch clay pipe sewer be constructed on Poplar street. Referred to the committee on sewers.

REPORT OF WATER WORKS TRUSTEES.

His Honor, the Mayor, and gentlemen of the Common Council:

We hand herewith, for your consideration, the report of Prof. D. M. Greene, of Troy, New York, the gentleman who was employed to make the test of the new Holly Triple Expolsion pump, recently put into operation in the water works pumping house. The report is, we believe, as complete on detail as we could desire, and as the conditions of contract made with the Holly Manufacturing company, have been carefully examined by the expert and compared with the capacity of the pump, both as regards economy and quantity. We feel entirely satisfied with the result and recommend the acceptance of the pump from the Holly company. The test seems to have been satisfactory in every way, and Prof. Greene says we can pump from one and a half million gallons to seven millions, without any question, with the cylinders now in use, and as high as nine million gallons with the 24½ cylinders, when required.

C. MCCULLOCH.
CHRISTIAN BOSEKER,
WM. BITTLER,
Water Works Trustees.

GENTLEMEN:—I have carefully considered the record of the recent test of your Triple Expansion pumping engine, furnished by the Holly Manufacturing company, of Lockport, New York, together with the contract and specifications under which said engine was furnished, and the resolution adopted by your common council relating thereto, on May 2nd 1890, and respectfully report:

The contract and specifications referred to, call for a Triple Expansion engine, to operate three single acting pumps, having essential dimensions, as follows:

Diameter of high pressure cylinder 20 inches.
Diameter of intermediate cylinder, 29½ inches.
Diameter of low-pressure cylinder, 51 inches.
Diameter of pump plungers, 24¾ inches.
Common stroke of steam-pistons and pump plungers, 40 inches.

This machinery, with a piston speed of 120 feet per minute, or 18 revolutions, and with an initial steam pressure of 90 pounds per square inch—above the atmosphere—is required to pump 6,000,000 United States gallons of water, against a head of 120 feet—exclusive of friction—and, while pumping water, under these conditions, to develop a duty of 120 millions of foot pounds for each 100 pounds of coal burned, the coal consumption being based upon the assumed evaporation of 10 pounds of water per pound of coal, from the temperature of the feed. This is equivalent to the performance of 120 millions of foot-pounds of work for each 1000 pounds of water converted into steam in the boilers, while the engines and pumps are in operation, and running at the specified speed, and under the specified pressure. The engine is also required to meet the usual requirements of your city, for its supply of water for domestic purposes, and for extinguishing fires.

As constructed, I find a single departure from the specified dimensions, as follows.

The pump plungers are 20 inches in diameter, instead of 24¾ inches as required by the specifications.

Six millions of gallons in 24 hours is equivalent to 9.282 cubic feet per second, or to 3.094 cubic feet per second for each of the three pumps.

The area of a section of the 20 inch plunger is 2.182 square feet.

If, therefore, the pumps were done acting, the required speed of plunger would be 2.182)3.094(1.418 feet per second, but as the pumps are single acting, the speed of these plungers must be twice as great, or 2.836 feet per second, which is equivalent to 170.16 feet per minute.

During each revolution of the engine the pump plungers will travel 80 inches, or 6 2-3 feet.

The required number of revolutions of the engine will therefore be 6⅔)170.16(25.52 per minute per minute in order to pump the required number of gallons of water in 24 hours, or allowing obout 2 per cent. for imperfect filling of the pumps, the necessary speed of the engines will be 26 revolutions per minute.

The head of 120 feet, against which the water is to be pumped, or the height to which it is to be pumped, is equivalent to 2.31)120(52 18 pounds per square inch on the pump plungers. The load on each pump will therefore be 314.16x52.18: 16,392.87 pounds, and on the three pumps, 49,178.61 pounds.

Each pump plunger moves under its load 3½ feet during each revolution The work per revolution will therefore be for the three plungers 3½x14,978.61: 163,9 28.7 foot-pounds, and for 26 revolutions, 4,262,146.2 foot-pounds. This is the required net work of the three pumps per minute.

Now, since 120,000,000 of foot-pounds of work are to be performed by 1,000 pounds of steam, it follows that the net work per pound of steam must be 120,000 foot-pounds.

It follows, therefore, that 4,262,116 2-3-120,000: 35,518 pounds of steam may be used each minute while the engine is running at the required speed and under the specified head of water. or under a pressure of 52.18 pounds per square inch on the pumps. The hourly consumption of steamnay therefore be 60x35,518: 2,131.08 pounds.

If then the engine, with its 20 inch pump plungers, be run at at a speed of 26 revolutions per minute against a head of 120 feet on the pumps and no more than 2,131.08 pounds of steam per hour be used, it will have satisfied the requirements of the contract, both as to ultimate capacity and as to duty.

P. S.—I have not deemed it necessary to say in my report that the load upon the pumps, or the head against which they were required to work, could only be obtained by choking down the discharge or obstructing it by partly closing the valve.

This is the usual and only practicable mode of proceedure in such cases and requiring the same work on the part of the engine as though the water pumped had been actually lifted 120 feet and discharged into a reservoir.

The Test—On Monday, the 18th inst., at 10 a. m. the test was began. Arrangements had previously been made for weighing the water supplied to the boilers.

A cylindrical tub, about 4 feet in diameter and 2 feet deep, was placed on the engine room floor in the rear of the engine, from which was led the temporary suction pipe for the boiler feed-pumps. Above this feed tank was placed a platform scale, upon which was balanced a tub having a capacity of about 935 pounds of water. The water was weighed in charges of 950 pounds, each charge being wholly discharged into the lower, or feed tank and the discharge pipe closed before refilling began. The feed water was supplied to the upper tub from the force main at a temperature of 53 degrees.

At the beginning of the test the lower, or feed tank was brim full, and the height of the water in the boilers was noted, and marked on the glass guages.

At the conclusion of the test, at 10 a. m., on the 18th inst., the water was brought to the same height, in the boilers, as at the beginning, and the feed tank was full.

Fifty-two charges of 950 pounds each had been drawn from the upper tub, and 185 pounds from the 53rd charge.

The consumption of weighed water was therefore (52x950x185) 49,585 pounds in 24 hours, or 2,066.04 pounds per hour.

The feed-pumps took more water from the tank than the boilers required; the surplus being returned to the feed tank by a small pipe. Thus a considerable portion of the water taken by the feed pumps, was kept in circulation from the tank to the pumps, and from the pumps back to the tank again.

The condensation in the steam jackets, and in the re-heating coils of the receivers, was tapped off, and joined the feed water, adding a small and uncertain percentage to the water which was weighed. Where this condensation has been determined, in connection with tests of compound engines, it has been found to vary from 5-7 per cent. to 10 per cent. of the weight of the weighed feed water.

In this case, on account of the third cylinder and re-heating coils, I shall assume the larger percentage of condensation, or 10 per cent.

Increasing the weighted water by 10 per cent. we get, from the probable sum of the weighted water and added water of condensation, from the jackets. (2,066.04x2x6.60) 2,272.64 pounds per hour.

THE REVOLUTIONS—The readings of the engine counter were as follows:

At 10 a. m., May 12th	582,183
At 10 a. m., May 13th	620,108
Revolutions in 24 hours	37,925
Revolutions per minute, mean	26.34

THE HEAD—The head was composed of three parts as follows:

1. The lift, from the source of supply to the level of the delivery valves.
2. The elevation of the engine room guage above the level of the delivery valves; and
3. The head, in feet, due to the mean pressure indicated by the water pressure gauge on the engine.

The mean lift, or suction, was measured by 14.32 inches of mercury, or its equivalent;, which represents 14.32x1.15 ..... 16.47 feet.
The height of the engine gauge above the delivery valves was ..... 31.50 feet.
The mean water pressure, by the engine gauge was 34.08 pounds; equivolent to 34.08x2.3 ..... 78.38 feet.
Mean total head ..... 126.35 feet.

The mean steam pressure for the 24 hours, at the engine, was 90.5 pounds, from which should be deducted a short water column—about 20 inches—equivalent to nearly 0.75 of a pound, leaving, for the actual steam pressure, about 89.75 pounds.

Collecting results, we have, for the 24 hours run:

Mean steam pressure	89.75 lbs.
Mean head pumped against	126.35 ft.
Mean revolutions, per min	26.34
Mean weight of weighted water, and water of condensation in the jackets and re-heating coils, per hour	2272.64 lbs.

Thus it appears:

1. That the mean steam pressure was about ½ pound per square inch less than the specified pressure.
2. That the mean head pumped against exceeded the specified head by 5.3 per cent.
3. That the mean number of revolutions per minute exceed the number theoretically necessary by 3.2 per cent., and,
4. That the weighed feed water, plus the added water of condensption from cylinder jackets and reheating coils, exceeded the estimated quantities by 6.6 per cent.

The Capacity of the Pumps—It follows from the foregoing that the theoretical capacity of the pumps at the mean speed of the trial exceeded the specified capacity by 3.2 per cent. and is 6,192,60 United States gallons in twenty-four hours.

The Duty—Combining the excesses in the mean head, in the mean number of revolutions and in the weight of water accounted for as supplied to the boilers per hour, we get what we may designate as a co-efficient of duty, thus:

$$\frac{1.053 \times 1.032}{1.066} = 1.01941.$$

which indicates that the actual duty was 1.01941 times the specified duty of 120,000,000 of foot-pounds per 1,000 pounds of water or steam. We thus obtain for the actual duty, 120,000,000x 1.01941: 122,319,200 foot-pounds.

Gas Consumption and its Cost—The mean hourly rate of gas consumption was 5,212 cubic feet—said to have been under a pressure of 8 ounces. This is at the rate of 20,848 cubic feet per million gallons raised 126 feet, or 165.3 cubic feet per million gallons raised one foot.

At 7 cents per 1,000 cubic feet, the cost of this service—one million one foot—for fuel was 1.157 cents, or a trifle more than 1 1-7 cents per million gallons one foot high.

Can the 24¾ inch plungers be operated to pump 6,000,000 gallons in 24 hours against a head of 120 feet? The sectional area of a 24½ inch plunger is 1.5 times as large as the area of a 20 inch plunger.

In order then to operate the larger plungers against a head of 120 feet, the mean effective steam pressure on the pistons must be 50 per cent. greater than it was during the test. If this increased pressure has at any time been maintained with the 20-inch plungers the question presented is answered practically, and there is no occasion to resort to theoretical consideration or to invoke expert opinion.

On the 14th inst. you all witnessed the five streams which were thrown.

During that exhibition the engine pressure gauge indicated 96 pounds, representing a head above the guage of 2.3x97: 220.8 feet. Adding to this 31.5 feet for the vertical distance between the engine gauge and the delivery valves and 12 feet for the lift, or suction, we get a total head of 264.3 feet.

Thus the actual mean steam pressure on that occasion must have been 1.5)2 2(1,456 times as great as would be required to operate the 24½ inch plungers, showing an excess of 46.6 per cent; sufficient to force water to a height of about 173 feet.

This head ought to throw five streams to a height of over 100 feet, in the city.

The speed required to pump six millions of gallons, with the large plungers will be only (7½x25.52=)17 revolutions per minute.

The works, in the two cases, will be measured by the products of the pressure by the revolutions; thus, with 20-inch plungers, work 1.5x25.52; 24½-inch plungers, work 1.5x17: 25.50. The same quantity of steam will therefore do the work in either case, except that in the case of the larger plungers, the work may be done a trifle less economically.

The actual duty may be greater than that based upon an evaporation of 10 to 1.

During the test the water entered the boilers at a mean temperature of 98 degrees Fahr. It is entirely practicable to construct boilers which will evaporate more than 10 pounds of water from a temperature of 98 degrees, and under a pressure of 90 pounds.

Now, in ordinary running, the feed water will be taken from the hot-well, at at a temperature considerably above 98 degrees, and heated by condensation in the jackets and reheating coils, to a temperature of say 180 degrees, or even more, each pound of feed water entering the boilers will then require 82 degrees less heat for its evaporation than it would at 98 degrees. The result will be that the evaporation, with the same fuel—say one pound of coal—will be increased 8¾ per cent above that in the test. It therefore follows that the the duty per hundred pounds of coal, would be 8¾ per cent. greater than that based upon an evaporation of 10 to 1 under the conditions of the test.

The probable duty under the assumed conditions would be 122,329,200x1.0875=133,033.000 foot pounds, per hundred pounds of coal.

To accomplish this result—assuming our estimate of the test to be correct—the evaporation, per pound of coal, from a temperature of 180 degrees should be 10,875 pounds.

This is a remarkable duty, the exaction of which is, in my opinion, entirely unreasonable; and the builder who will guarantee it must be a man of more than ordinary cou age.

Such a duty is dangerously near the boundary which separates the possible from the impossible, and ought not to be exacted nor guaranteed.

Will the engine meet the requirements of your city? In reply to this question it is sufficient to say that many of your citizens saw the engine, running smoothly, on the 10th inst., at a speed of about 6 revolutions per minute. You also saw it running, with equal and even greater regularity and smoothness, on the 13th and 14th at a speed of 26 revolutions. It necessarily follows, that the engine will run in an equally satisfactory manner, at any speed between 6 and 26 revolutions, or while pumping water at any rate between 1½ millions and 6 millions.

In my opinion, the engine may be run, with entire safety, up to 30 revolutions per minute; at which speed it will pump at the rate of nearly 7 millions in 24 hours.

It is a remarkable fact that, during the last 23½ hours of the test, the speed of the engine ranged from 26.11 to 26.66 revolutions per minute; and that, during nine consecutive periods of 30 minutes each, the speed was constant at 26.26 revolutions per minute.

With the larger plungers, and with more steam, at a somewhat higher pressure, I believe this engine capable of pumping 9 millions of gallons. Thus the range of capacity may be widened, so as to include any desired quantity of water daily, between 1½ and 9 millions of gallons.

The fact that you have been provided with two sets of plungers, of different sizes, I regard as most fortunate, enabling you, as it does, to meet your present moderate requirements, and to keep pace with the gradually increasing requirements, due to increase in population, until the latter shall have reached more than 100,000 souls.

Aside from the question of duty, you are to be congratulated upon having procured, for the use of your city, a machine so satisfactory in its action, so perfect in its mechanical details and in its ventilation, and having such a remarkable range of capacity.

In conclusion I desire to commend the zeal, activity and care of Messrs. Schied, Meyer and McKaury, who kept the various records during the test, without relief; also to acknowledge the thoughtful and generous provision made by you for our convenience and comfort.

All of which is

Respectfully submitted,
D. M. GREENE.

Troy, N. Y., May 21, 1890.

An ordinance fixing the salaries of officers and employees of the city of Fort Wayne for one year from May 1890 to May 1891.

Section 1. Be it ordained by the common council of the city of Fort Wayne, that the salaries of the officers and employees of said city for the ensuing year be, and the same are hereby fixed as follows:

To the mayor the sum of ($2,500.00) twenty-five hundred dollars and no fees per annum.

To the city clerk the sum of ($3,000.00) three thousand dollars and no fees per annum, and said clerk shall perform every duty pertaining to his office, including the making of the tax duplicates for the year 1890, and also index for council proceedings.

To the city treasurer the sum of ($2,500.00) twenty-five hundred dollars per annum and fees on all taxes collected, other than those due for the current year.

To the city assessor the sum of $900 per annum.

To each and every deputy assessor the sum of $2 per day of eight hours, for the time he may be actually employed.

To the street commissioner the sum of $1,200 per annum.

To the civil engineer the sum of $1,400 per annum.

To the city marshal the sum of $1,800 per annum and no fees.

To the city attorney the sum of $1,500 per annum and no fees.

To the chief of fire department the sum of $1,200 per annum.

To the trustees of the water works the sum of $1.0 for each trustee per annum, for all services performed by them as such trustees.

To the market master the sum of $200 per annum.

To the assistant civil engineer the sum of $85 per month.

To the secretary of the board of health the sum of $500 per annum.

To the chief of police the sum of $1,000 per annum and no fees.

To each and every regular patrolman the sum of $65 each and no fees per month of actual service.

To the lieutenant of police the sum of $75 and no fees per month.

To the night police office clerk the sum of $40 and no fees per month.

To the day clerk of the police office the sum of $25 and no fees per month.

To the supervisor of streets the sum of $2 per day of actual service.

To the poundmaster the sum of $1.25 for each day of service, and fees of 25 cents for each animal impounded and fine collected.

To each member of the common council the sum of $2 for each attendance upon a meeting of the council, and $2.75 per day for committee duties when actually engaged, provided no member of the common council shall receive for one year for his services more than $150.

Sec. 2. All salaries, annual, monthly and per diem shall be paid in city orders at par.

Sec. 3. All ordinances in conflict with this ordinance be and the same are hereby repealed.

Sec. 4. This ordinance shall be in force and take effect from and after its passage.

Sec. 5. The salaries of said mayor, clerk, city marshal, city attorney, chief of police, patrolman and lieutenant, are fixed as above and payable to said officers, that they and each of them will cause to be paid into the city treasury for the benefit of said city, each and all fees to which they would otherwise be entitled as officers and servants of said city and all fees to which they would be entitled under the criminal laws of the state and under the ordinances of said city, or as witnesses before the mayor.

Sec. 6. Done at the council chamber of the city of Fort Wayne, this 27th day of May, 1890.

D. L. HARDING, Mayor.
RUDY C. REINEWALD,
City Clerk.

An ordinance (which is recorded in full in ordinance book 3, page 117,118,119) was read a first and second time and on motion the rules were suspended, and the ordinance read a third time now, and a motion that the ordinance now pass prevailed by the following vote:

Ayes, 17, viz: Councilmen Boltz, Cody, Cran, Delagrange, Gruber, Gordon, Hilbrecht, Huser, Hilgeman, Meyer, Meyer, jr., Michael, Ofenloch, Scheffer, Scheid, Smith and Vordermark. Nays, none.

GOT THE "PHAT."

The success that has been achieved by the Hon. Edwin Cowles, of the Cleveland *Leader*, shows how important it is that a great editor should know every detail of the printing business. One day, shortly after the *Leader* began to grow famous, a compositor who had been with the paper from the start met Mr. Cowles on the stairway and thus addressed him:

"Mr. Cowles, I have decided to quit you."

"Why, what's the trouble?"

"No trouble at all, except that I am not making money enough."

"Not making money enough?" Mr. Cowles exclaimed. "Why, how much money do you want? You are getting more than your share of 'phat,' I am sure."

"I haven't seen any 'phat' lately, Mr. Cowles."

"The deuce you haven't! Didn't you set up 'Cæsar' three times yesterday?"

"Yes, but what of that?"

"What of that!" Mr. Cowles angrily exclaimed. "What of it! Why, you lifted three diphthongs, that's what. Can you ask for anything 'phatter' than to lift up two letters at once?"—*Arkansaw Traveler.*

NOT A PIMPLE ON BABY.

Baby one year old. Bad with Eczema Hair all gone. Scalp covered with eruptions. Cured by Cuticura. Hair splendid and not a pimple on him.

Cured by Cuticura.

I cannot say enough in praise of the Cuticura Remedies. My boy, when one year of age, was so bad with eczema that he lost all his hair. His scalp was covered with eruptions, which the doctors said was scall-head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the Cuticura Remedies, and, I am happy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the Cuticura Remedies to mothers as the most speedy, economical, and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing.

MRS. M. E. WOODSUM, Norway, Me.

Fever Sore Eight Years.

I must extend to you the thanks of one of my customers, who has been cured by using the Cuticura Remedies, of an old sore, caused by a long spell of sickness or fever eight years ago. He was so bad we were fearful he would have to have his leg amputated, but is happy to say he is now entirely well—sound as a dollar. He requests me to use his name, which is H. H. Cason, merchant. JOHN V. MINOR, Druggist, Gainesboro, Tenn.

We have been selling your Cuticura Remedies for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of scrofula I ever saw was cured by them.

Dyspepsia

Makes the lives of many people miserable, causing distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels. Dyspepsia does not get well of itself. It requires careful attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet efficiently. It tones the stomach, regulates the digestion, creates a good appetite, banishes headache, and refreshes the mind.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would have a faint or tired, all-gone feeling, as though I had not eaten anything. My trouble was aggravated by my business, painting. Last spring I took Hood's Sarsaparilla, which did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. The Standard.

"I regard Hood's Sarsaparilla as having passed above the grade of what are commonly called patent or proprietary medicines," said a well known physician recently. "It is fully entitled to be considered a standard medicine, and has won this position by its undoubted and by the many remarkable cures it has effected. For an alterative and tonic it has never been equalled."

THE MUTUAL LIFE INSURANCE COMPANY,

OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

—E. C. POTTER & CO.—

No. 799. New York, Dec. 24, 1889.

BANK OF NEW YORK.

National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ——— LARS.

$578,345 00/100 — 29 DEC 28 1889. — CERTIFIED. Payable through New York Clearing House, N. B. A. — E. C. PC ITER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

ASSIMULATES DEATH!

And Hides in the Woods for Six Months so That His Wife Can Collect an Insurance.

RALEIGH, N. C., May 28.—Twelve months ago James Dillon, a well-known citizen of Tyrrell county, insured his life for $3,000 in the Connecticut Mutual Life Insurance company. Some time after he fell from a boat half a mile from shore and yelled loudly for help to a man a quarter of a mile away. When the man responded Dillon secretely swam ashore and could not be seen. The man whose assistance he asked supposed he was drowned and was perfectly willing to swear to it. Notice of Dillon's death was sent to the company. It refused to pay the insurance. Action was brought by Dillon's wife and the case stood for trial at the court last week. The widow alleged that he was drowned.

Ten day's ago a body was found near the place where he had been seen to sink in the water. The body was identified by twenty-five persons as that of Dillon. At court, counsel for the wife took a non-suit because the body had not been found. There is no doubt that the company would have paid the money, but last Friday, to the surprise of every one, Dillon, himself, returned, safe and sound, to Columbia. His statement is most remarkable. He says he swam ashore the day he overturned the boat, put his hat in it, and left the boat half full of water. He determined to hide in the woods so that his wife could get the insurance money. He kept in the great swamps for five months, when he found the body of a drowned man floating in the Alligator river.

He removed the hair from the head so as to make it bald, and taking his own whiskers, put them in the decomposing flesh of the corpse. He knocked out two of the front teeth of the dead man and removing the clothing from the corpse, dressed it in the clothes he had worn on the day of disappearance. At night he conveyed the body to the place where he was supposed to have been drowned. Subsequently hearing of the non-suit he thought it put an end to his claim and that there was no hope of collecting the money and he returned home.

ALABAMA'S POLITICAL POT

Is Boiling Hot--The Democratic State Convention To-Day.

MONTGOMERY, Ala., May 28.—Alabama is in the midst of the bitterest political campaign since 1874. The state democratic convention met at noon to day. There are five candidates for governor in the race, Col. Thos. G. Jones, of Montgomery; Capt. Jos. F. Johnston, of Birmingham; Capt. James Cook, of Jacksonville; Judge Wm. A. Robertson, of Huntsville, and R. F. Kolb, of Eufault, the present agricultural commissioner of the state and the Farmers' alliance candidate for governor. He has posed as the farmers' candidate and expects to win on that ticket.

The convention is composed of 526 delegates and it is generally conceded that Kolb will have over 200 votes on the first ballot, which puts him ahead of any of the others. War has been made on Kolb by the democratic press and leaders on account of his efforts to arraign the farmers against all other classes. The alliance in this state is over eighty thousand strong, and the majority of the members will support Kolb, and if the order is strong enough to nominate him, he will be the next governor.

MAY HAVE NEEDED IT.

Indianapolis "Shook Up" by Nine Earthquake Shocks.

INDIANAPOLIS, May 28.—Earthquake shocks were felt here at an early hour yesterday morning. Fifteen occupants of a frame building at the Vandalia transfer yards experienced an unusual shock, accompanied by a shaking of the building and a sound like the rushing of a volume of water beneath the building. The first shock was swiftly followed by a second and so on until nine distinct shocks had been felt by the then thoroughly frightened inmates. A peculiar feature of the disturbance was its being heard by yard men some distance away from the building and they also thought they could discern a sound similar to the rushing of water. It is supposed a large subterranean body of water lying underneath that portion of the city had been greatly agitated by some unknown cause.

BLUE AND GRAY

Mingle Together in a Re-union at Vicksburg--The Blue Given the Post of Honor.

VICKSBURG, Miss., May 28.—The re-union of the blue and the gray yesterday was a success, and was attended by thousands of people. In the parade the Grand Army of the Republic occupied the post of honor, followed by the confederate veterans. Speeches were made by Governor Stone, of Mississippi, and a number of prominent northern and and southern veterans.

The Weather.

WASHINGTON, May 28.—For Indiana: Increasing cloudiness and rains, with local storms; warmer to-day; cooler by Thursday afternoon; southerly winds.

MARY DIDN'T SPEAK.

An Equal Suffragist Advocate Prevented From Holding a Meeting.

TRIPP, S. D., May 28.—Mrs. Mary Seymour Howell, of New York, who, in company with Susan B. Anthony, is working in the interest of equal suffrage was here yesterday, with the expectation of delivering a lecture last evening. On her arrival she was met by a delegation, mostly Russians, and told that they did not want to hear any woman preach, and she would not be allowed to speak in the school house. This aroused the indignation of other citizens, and they determined to open the school house to her. The situation, however, became so threatening as evening approached, that she was afraid to remain in town, and departed for Parkston. Feeling runs very high.

SMALL FOX IS THERE.

The Dreaded Malady Raging in Dansville, New York.

MOUNT MORRIS, N. Y., May 28.—At a meeting of the village board of health yesterday an ordinance was passed forbidding any person belonging in Dansville from visiting this village, or any person from here going to Dansville during the prevalence of the small pox in that village under a penalty of $1,000 or six months imprisonment. The small pox is reported spreading in Dansville, and four deaths are reported.

SPRINGFIELD, Ill, May 28.—There is an epidemic of diphtheria at Maringo, McHenry county. The state board of health has information of three deaths in one family. The cause of the disease is supposed to be a contaminated water supply.

MAY HAVE ELOPED.

A Handsome Blonde Missing From Her Home.

MACOMB, Ill., May 28.—Residents of the village of Industry, this county, are greatly excited over the mysterious disappearance of Ella Corpell, a handsome young woman, who left home ten days ago to visit a sister at Bowen, Ill. She was traced on the Wabash railroad to near Keokuk, where all clues were lost. A reward of $50 is offered for information as to her whereabouts. She is about twenty years of age and a blonde.

WENT RAVING MAD

Because His Wife Ran Away With Another Man.

DETROIT, May 28.—Alvis Miesches brooded so much over his wife's running away with Adam Bloch, a supposed friend, that he went insane yesterday and had to be locked up to prevent him from murdering his seven children. He is raving mad, and spends his time cursing Bloch and threatening to kill his children. The police are looking for Bloch.

IT IS NOT TRUE.

The Manhattan Mutual Fire Insurance is not in a Bad Way.

MINNEAPOLIS, Minn., May 28.—President C. H. Spencer, of the Manhattan Mutual Fire Insurance company of New York, denies absolutely that the company is in a bad way and liable to collapse. He said the report was due wholly to statements by Fitzgerald, who had sworn vengeance for having his head cut off as manager.

NATIONAL CONFERENCE.

The Greenbackers Will Meet at Indianapolis, August 27.

INDIANAPOLIS, Ind., May 28.—A call was issued yesterday for a greenback conference to be held in Tomlinson hall, Indianapolis, at noon, Wednesday, August 27.

Wants to Settle.

ST. LOUIS, Mo., May 28.—Mansfield King, the man who robbed President Moffat, of the Denver bank, of $21,000, says he has made a proposition to the bank officials to return the money and pay all the expense they have incurred in the matter providing they agree not to prosecute him. Nothing has been heard from Denver in regard to the acceptance of the proposition as yet.

Chicago Markets.

CHICAGO, May 28.—Wheat: May ——; June, 93½; July, 94. Corn: June, 33½@34; July, 34¼. Oats: May, 29; June, 27¼; July, 26½. Pork: June, $13.20; July, 13.35. Lard: $6.05; July, $6.17½; September, $6.37½. Ribs: July, $5.27½@5.30; September, $5.47½.

Badly Wrecked.

COLUMBIA, S. C., May 28.—Passenger train No. 51, which left here on the Atlantic Coast line at 10:25 Monday night for Wellington, was badly wrecked fifteen miles from Columbus. Only one hurt.

Prohibited the Sale of Liquor.

WASHINGTON, May 28.—Speaker Reed has temporarily prohibited the sale of liquor in the house restaurant. This may be modified, however, to permit drinks to be served at tables.

Lee's Monument.

RICHMOND, Va., May 28.—Flags and bunting envelop the houses along the principal streets to-day, the occasion being the Lee monument unveiling, which takes place to-morrow.

Prohibition Convention.

SYRACUSE, N. Y., May 28.—The "state amendment convention" of all prohibition societies of the state of New York, was called to order by Dr. H. Mann, of Brooklyn, this morning.

DECKED WITH FLOWERS!

The Floral Tributes That Greeted Randall's Successor When He Entered Congress To-day.

WASHINGTON, May 28.—Two desks in the house of representatives were hardly large enough to hold the floral tributes that greeted the eyes of Charles A. Vaux, of Philadelphia, the successor to the late Samuel J. Randall, when he entered the house this morning, preparatory to taking his oath as a member of congress.

The principal piece was a magnificent representation in roses and immortelles of the coat of arms of the city of Philadelphia, presented by the board of directors of the eastern Penitentiary, of which Mr. Vaux was a member. Several bouquets of bride, and other varieties of roses were also among the tributes received.

Speaker Reed was in his chair and called the house to order at 12 m. Mr. O'Neil, of Pennsylvania, presented the credentials of Mr. Vaux, Mr. Randall's successor as representative from the third district of Pennsylvania, and escorted him to the bar of the house, where he affirmed. He took his seat amid applause. Mr. Vaux was the recipient of many congratulations and friendly greetings.

The house passed a number of bills and did routine business.

It is the intention of the house leaders to have the house adjourn over from Thursday until Monday, on account of Decoration day.

In the senate to-day after transaction of routine business the senate bill subjecting imported liquors to the law of the several states was again taken up. Mr. Morgan spoke in opposition to the measure, basing his argument on constitutional grounds.

BRUTALLY ASSASSINATED.

A Mississippi Merchant Meets a Cruel Death--Other Crimes.

JACKSON, Miss., May 28.—Mr. A. M. Kimball, a prominent merchant of this city, was assassinated near his residence early yesterday morning. The killing was done with a stick, or some blunt instrument. The key to his store was missing and the store had been broken open, but nothing missing could be discovered. One theory is that Kimball caught burglars in the act of robbing his store and was killed in the fight that followed.

ST. LOUIS, Mo., May 28.—Henry Hall, a farm hand working near Silston, Mo., was shot dead yesterday by a fellow farm hand named Jacob Haines. The men had apparently been close friends.

SPRINGFIELD, Ill., May 28.—Police Officer Killan Laurer last night shot and instantly killed Wm. Koch, aged 19 years. Koch, who had been arrested by the officer for a misdemeanor, started to run away.

WHITE CAPS

Commit Their Depredations in Southern Indiana.

LOUISVILLE, Ky., May 28.—A band of White Caps, thirty in number, visited Corridon, Ind., at 1 o'clock this morning and proceeded to the house occupied by Lucy Noyes and Jane Flay, two women of questionable reputation.

The women were dragged from bed, taken to the edge of the town, tied to trees and flogged until both had fainted from pain. Their thongs were then cut and the white caps departed, leaving their victims where they had fallen, at the foot of the trees, both insensible. Besides their general bad character, the two women were suspected of having set recent fires at the fair grounds near Corridon.

COLORED CONGREGATION.

A New Church Society Organized in This City.

Last Sunday a new colored congregation was organized in this city to be known as the Second Baptist church. The meeting was held at the W. C. T. U. headquarters on Harrison street, where, if suitable arrangements can be effected, services will be held regularly each Sabbath at 10:30 a. m., and 7:30 p. m. William Ridley will officiate as pastor.

ANDERSONVILLE PRISON.

The Stockade Purchased by the Georgia G. A. R.

AMERICUS, Ga., May 28.—The Andersonville prison stockade has been purchased by the Georgia encampment, G. A. R., acting for the national body.

A Big Thief.

WATERBURY, Conn., May 28—An investigation of the books of the Smith & Griggs company show that Geo. Roberts, the chief bookkeeper, who was arrested several days ago for embezzlement, has stolen in all, $30,000. He began stealing in 1871, just after he entered the employ of the concern, and since then has taken large sums each year.

Instantly Killed.

SILVER CITY, N. M., May 28.—Theo. Lyons, of this city, shot and instantly killed John R. McManigle last night. Lyons is a member of the firm of Lyons & Campbell, who are among the heaviest cattle owners in southern New Mexico. He claims to have found McManigle and Mrs. Lyons in a compromising position. All are prominent people.

HONORS TO THE DEAD.

An Outline of the Program That Will be Arranged for Decoration Day.

The committee of arrangements for the exercises of Memorial day will hold a meeting to-night at Sion S. Bass post hall to complete the program. The indications are that about thirty societies and organizations will turn out. The city officers and common council will appear in a body, and also the police force.

The following organizations, among others, will be in the parade: G. A. R. posts—Sion S. Bass, Anthony Wayne and George Humphrey; Union Veteran Legion, Sons of Veterans, Fort Wayne and Summit City lodges of the Ancient Order of United Workmen, Phoenix, Fort Wayne and Uniform Rank lodges Knights of Pythias; Emmett Commandery C. B. L., Knights of St. Charles, Wayne Commandery C. B. L., Patriarch Militant, Patriarchal Circle, Carpenters union and postoffice employes.

The City band and the First Regiment bands will discourse strains as the procession moves. The line of march will be over the principal streets along the line. The procession will move about 1 o'clock p. m. and after the march there will be appropriate exercises at Lindenwood. The merchants will be requested to close their doors in the afternoon. The city and county offices will be closed and business generally suspended as Decoration Day is a legal holiday.

THE CARPENTERS.

The Seriousness of the Situation Unless the Difficulty is Settled.

The difficulty between the carpenters and the building contractors of the city is assuming a serious phase, and unless something is done to prevent a wider breach it may result in a general tie-up of the building trade in Fort Wayne. At a joint meeting of the carpenters and the Trades and Labor council last night the situation was discussed, and some of the speakers went so far as to advocate a strike of all the unions engaged in the industries in order to bring the master builders to terms, but older and wiser heads deprecated such action and said it ought only to be adopted as a last resort. It was, decided, to call a meeting of the various trades unions and lay the matter before them for consideration.

In conversation with a prominent member of one of the labor unions today, that gentleman said to THE SENTINEL reporter: "Yes, a general tie-up of the building trades is possible as a result of this trouble. A general strike need not be ordered. The thing can be brought about in another way. The brick masons, the hod carriers, the plasterers, the painters, the tinners, the plumbers and other trades are all dependent upon the work of the carpenters. The carpenters must do their work before the other trades can proceed, and if this is not done you can easily see how building must come to a stand-still. The carpenters have made many concessions and I know the general sentiment is now that they will stand firmly for their remaining rights. We have already made many concessions, but were we to concede the points now demanded by the master carpenters it would amount to a virtual giving up of our organization. They claim the right to have a union and they ought certainly to concede us the same right."

A tinner's and sheet iron workers union was organized last evening. The plasterers' union will hold a meeting this evening and discuss the disagreement with the master builders.

BOY HURT.

A Horse Upsets a Wagon, Seriously Injuring Arthur Stine.

Arthur Stine, a youth in the employ of B. L. Auger, the florist, was thrown from a wagon and quite seriously injured this morning. While he was driving along South Broadway near Nestel's nursery, the vehicle collided with a sand wagon, and the horse becoming frightened, turned short and upset the wagon. The young man's lower limbs were injured, one of them being fractured. He was conveyed to his home on Williams street where Dr. Myers put a plaster of paris bandage on the broken limb.

THREE ACCIDENTS.

Brakeman Reed Badly Squeezed--Kicked by a Horse--Finger Mashed.

W. D. Reed, a brakeman on the Fort Wayne road, was badly squeezed between the deadwoods and probably fatally injured. Internal trouble. The man lives at 331 Hoagland avenue, where he was taken to-day.

George James, living on South Wayne avenue, was kicked in the face by a horse to-day. Bad injury, but no fracture.

C. Rodenbeck, boiler-maker in the Pittsburg shop, had a finger mashed today.

A Card of Thanks.

The family and friends of the late Mrs. Joseph Grothaus, the daughter of Barney Roth, desire to return thanks to friends and neighbors, and to Mr. John H. Bass, Miss Rohyans and Mrs. Amelia Farrel for handsome floral decorations.

THE EIGHT-HOUR FIGHT.

Over Forty Thousand Carpenters Said to Have Been Benefited by It.

In conversing last evening with a prominent member of the Brotherhood of Carpenters on the general effect of the movement of the trade for an eight hour day throughout the country, that gentleman said to a SENTINEL reporter:

"Up to date we have suffered no defeat. The movement for shorter hours in our trade caused 141 strikes, involving 208 unions and 54,852 men—unionists and non-unionists. They resulted as follows: In twenty-seven cities and towns the eight-hour day was won for 23,355 men; in seventy-two cities and towns we established the nine-hour rule, benefitting 14,180 men. The wages of over twenty-six hundred men were advanced. The principal points where the eight-hour rule was adopted are New York, Brooklyn, Chicago, Milwaukee, St. Louis, Denver, San Francisco, San Antonia, Tex., and Indianapolis. Some non-union carpenters sided with us and did excellent work. The strike cost our general body only $35,628 and the local unions about the same; twenty-four strikes are still in progress. The struggle added forty-six new unions, with 11,241 members, to the Brotherhood, which now has 622 branches and 67,200 members."

MASTER MASONS MEET.

Representatives of Twenty-five Thousand Members Meet at Indianapolis.

Grand Lodge, F. and A. Masons of the state of Indiana, met at Indianapolis yesterday, with Thomas B. Long, of Terre Haute, grand master, in the chair, and all the grand officers in their places, except Roger Parry, grand tyler, who is confined to his bed by sickness. This is the sixty-ninth annual meeting, and is the seventy-third year of the grand lodge. A convention to organize the grand lodge was held at Corydon, December 3, 1817, and the grand lodge was organized and first officers elected and installed at Madison, January 13, 1818. The grand lodge has been presided over by forty grand masters, fifteen of whom are now living. Hon. A. C. Downey, of Rising Sun, is No. 20 in the list of past grand masters, and ranks all those living. The grand lodge has had fourteen grand secretaries, only two of whom are now living.

Grand Master Thomas B. Long, of Terre Haute, delivered the annual address.

The Grand Treasurer Martin H. Rice, reported a balance of $13,175.67 on hand. Wm. H. Smythe, grand secretary, reported cash receipts, including balance on hand, last year, $37,086.96, and the expenditures, $2,553.45; and receipts and disbursements to the Clay county miners $8,705.85. There are at present 23,896 affiliating Master Masons in the state. The present number of chartered lodges is 464, and the average membership fifty one. Terre Haute lodge, No. 19, has 325 members, and is the largest lodge in the state.

During the year the Grand Master granted dispensations for the organization of lodges of Mount Vernon, Sidney, Canaan, Hanover and Carthage. After the submission of the reports the Grand Master appointed the standing committees. The lodge will adjourn to-day.

WARM DISCUSSIONS.

Councilmen Boltz and Cody Fight Against the Steam Roller--The Police Commission Talks.

There were two warm discussions at the council chamber last night. One was caused by Councilmen Cody and Boltz urging that the new steam roller be not accepted. After fully three-quarters of an hour's argument, City Attorney Colerick calmly stepped before the body and informed them that the machine had already been accepted by a legally written contract and must, of course, be paid for. The silence then, was painful, and the roller was accepted.

Another lively and interesting discussion was one caused by Councilman Boltz objecting to a section in the police commissioner's report wherein Officer Eric Richter was suspended from the police force for thirty days. Mr. Boltz wanted to know why Officer Stoll was not suspended too. Both were eating frogs from the same dish, he said, and drinking wine from the same bottle at the Globe restaurant in company with Lieutenant Leonard Fuchshober, who was discharged from the force. This was too much for some of the police commission who simultaneously jumped to their feet. Councilman Michael insisted that certain affidavits relating to the case be read to the council to show that the members of the police board were honest in their action. Councilman Gordon, also a member, addressed the meeting in emphatic and eloquent terms. Councilman Meyer, a member, demanded that an investigation be made in Stoll's case and Gordon forthwith filed a resolution demanding that Mr. Boltz produce certain testimony to bear on the case, which resolution was adopted.

These two resolutions took nearly as many hours time.

Hon. Jack Landers, of Indianapolis, is in the city.

HER LIFE EBBS AWAY!

Mrs. John Smith Dying From Blood Poisoning Caused by an Injury and "Baby" Will be Motherless.

In a house on the Godfrey farm southwest of the city dwells a dairyman named John Smith, his wife and several children. In this house the wife and mother lies on her death bed, while in the arms of a nurse rests a babe, born last Sunday.

Four weeks ago Mrs. Smith fell through the porch floor at their home and sustained a fracture to her lower limb below the knee, which injury was unattended by a physician until last Sunday when her healthy baby boy was born. The physicians at that time found that the limb was mortified and they recommended amputation at the hip be made as the only possible means of saving the patient's life. This was objected to and now Mrs. Smith is suffering the tortures of a slow death by blood poison. Had the amputation of the limb been performed at the proper time the life of the dying woman might have been saved.

VICTORY FOR OUR BOYS.

The Fort Waynes Win the Second Game With Bluffton--Other Games.

Yesterday at Bluffton, the base ball club of that place was beaten by Fort Wayne by a score of 15 to 13. The game was a poor one, but served to buoy up the spirits of our enthusiasts, who were crushed by the previous day's defeat. The battery for Fort Wayne was McCarthy and Ferris. Cates and Hines were in the points for Bluffton, but after the third inning Aydelotte was called in to pitch. In the sixth inning our boys succeeded in making six runs.

The score was as follows:

Fort Wayne.....2 2 5 0 0 6 0 0 *—15
Blufftons.....4 2 0 0 0 5 0 0 2—13

Batteries—Cates, Aydelotte and Hines; McCarty and Ferris.

Bases on Balls—By Cates, 5; by Aydelotte, 1; by McCarty, 2.

Base Hits—Fort Waynes, 10; Bluffons, 14.

Errors—Fort Waynes, 11; Bluffton, 10.

Two-base Hits—Bruton, Reeder 2, Ogden and Cates.

Three-base Hits—Boseker 2.

Struck Out—By McCarty, 5; by Cates, 2; by Aydelotte, 2.

STATE LEAGUE.

Elkhart won of Marion in thirteen innings yesterday by a score of 7 to 5; Kokomo defeated Peru by a score of 13 to 6; Anderson was defeated by Muncie by a score of 7 to 0.

THE BIG GAMES.

Brotherhood—At New York, New York 14, Cleveland 2; at Philadelphia, Philadelphia 2, Buffalo 9; at Brooklyn, Brooklyn, 17, Pittsburg 7; at Boston, game postponed on account of rain.

National League—At New York, New York 4, Chicago 2; at Philadelphia, Philadelphia 8, Pittsburg 1; at Brooklyn, Brooklyn 4, Cleveland 1; Boston Cincinnati game postponed on account of rain.

American Association—At Rochester, Rochester 4, Toledo 7; at Syracuse, Syracuse 2, Louisville 3; at Philadelphia, Athletics 10, St. Louis 8; second game, Athletics 10, St. Louis 8.

NOTES.

Don't discourage our club.

Gallagher will play again to-day.

Fort Wayne is getting several new players.

Muncie and Fort Wayne at league park to-day.

There was a poor attendance at Bluffton yesterday.

Manager Billy Meyer is thirty-six years old to-day.

The game between the two bank nines will draw quite a crowd on Decoration Day.

O'Brien Conway and Daniel Donohoe will be the battery for the Irishtown base ball nine.

Muncie will play here again to-morrow. Bluffton will play two games here on Decoration day, and Anderson will be here Saturday and Monday.

The Standards were the victors in a game of ball played with the Well streets last Sunday, by a score of 16 to 9. Batteries, Standards, Jants and Smith; Well streets, Ower and Starke.

The batting order in to-day's game is as follows: Allen, third base; Quirk, second base; Scott, first base; Bruton, pitcher; Ferris, catcher; Downing, short stop; Ellery, left field; Gallagher, center field; Malone, right field; bench, McCarty and Cain.

Manager Meyer and Captain Scott have signed a star pitcher named Wheeler, of Brooklyn, N. Y., who is expected to arrive here to-morrow. Wheeler is a left-handed twirler and played in the Atlanta and New Jersey league, where he got a great reputation.

The game at Muncie Monday, which resulted 2 to 0 in favor of Anderson, was protested by the Muncie team on the ground that Hemming, Anderson's pitcher, was a Brotherhood man, and the umpire instructed all stakeholders to hold money until settled, which was done to day by Nick Young, of the National league, ruling that Hemming's work was legal. The backers of the Muncie team lose heavily. The game was a fine one. A telegram received from the secretary of the State league, says that Hemming has not been signed and the game can not count.

FIXES SALARIES.

The Common Council Pass a Fee and Salary Ordinance--Other Business Done.

The common council of the city of Fort Wayne met in the council chambers Tuesday evening, May 27th, A. D., 1890, in regular session. His Honor Mayor Harding in the chair and Rudy C. Reinewald, city clerk at the desk, and present the following members:

Ayes—17. viz: Councilmen Boltz, Cody, Cranbelagrance, Gruber, Gordon, Hilbrecht, Huser, Hitzemann, Meyer, Meyer, jr., Michael, Ofenloch, Schefler, Scheid, Smith and Vordermark.

Absent—3, viz: Councilmen Dalman, Ely and Hazzard.

The minutes of the last regular and adjourned session having been delivered to the councilmen were on motion approved as published.

BILLS.

The following bills were on motion allowed:

Street commissioners pay roll	$587 72
Chas. J. Sonnenheimer, money advanced	11 00
Flushing sewers	17 00
Natural gas bench repairs	57 00
Park pay roll	94 00
Siemon & Bro	17 50
H. C. Pelz	36 00
W. Chandler	125 00
Ella Thorne	6 25
Gould Engineer	19 75
C. Schuicker & Son	3 00
Brickmakers' association	7 00
Mahler & Son	20 88
J. A. M. Storm	75
Mary Boerger	5 00
W. D. Henderson	1 00
Pfeiffer & Schlatter	3 70

The Barber Asphalt Paving Co. presented a bill amounting to $12,115.67, the balance due them on their estimate, and asked to have that amount paid them less the amount involved in the suit. Referred to committee on finance and city attorney.

The bill of G. W. Loag, county clerk for transcript amounting to $5.00 was referred to the committee on finance.

PETITIONS.

R. Lowry and ten others asked the city to pay C. Kramer $25 00 for sprinkling Court and Clinton streets. Referred to the committee on public grounds and buildings.

T. P. Randall and others, vestrymen of Trinity church, asked to have the tax assessed against the above named church remitted. Referred to the committee on assessment and taxes and city attorney.

C. C. Gumpper and 24 others asked to have an electric light placed at the corner of Calhoun and Blackenridge streets. Referred to the committee on street lights.

M. P. Longacre and 17 others asked to have a main sewer constructed on Rockhill street, commencing at the north line of Pritchard street, thence north on Rockhill to Main street, thence west on Main street to the St. Mary's river. Referred to the committee on sewers.

Joe W. Belt and 10 others asked that the sewer committee investigate the sewerage in that part of the city lying west of Union street and north of the Pittsburg railroad. Referred to the committee on sewers, board of health and civil engineer.

C. F. Rather and eight others asked to have the alley between Montgomery and Lewis street graded from Clay street to Monroe street. Referred to the committee on streets.

George W. Solliday and thirty others asked the council to have Wayne street from Hartner to Hanover street paved with cedar blocks. Referred to the committee on streets.

O. F. Parker asked to have a twelve-inch clay pipe sewer constructed on the north side of Duryea street commencing at the fifteen-inch sewer on Fairfield avenue, thence east along Duryea street to Hoagland avenue. Referred to the committee on sewers.

Henry Smith and four others asked that a fifteen inch clay pipe sewer be constructed on Poplar street. Referred to the committee on sewers.

REPORT OF WATER WORKS TRUSTEES.

His Honor, the Mayor, and gentlemen of the Common Council:

We hand herewith, for your consideration, the report of Prof. D. M. Greene, of Troy, New York, the gentleman who was employed to make the test of the new Holly Triple Expansion pump, recently put into operation in the water works pumping house. The report is, we believe, as complete on detail as we could desire and as the conditions of contract made with the Holly Manufacturing company, have been carefully examined by the expert and compared with the capacity of the pump, both as regards economy and quantity. We feel entirely satisfied with the result and recommend the acceptance of the pump from the Holly company. The test seems to have been satisfactory in every way, and Prof. Greene says we can pump from one and a half million gallons to seven millions, without any question, with the cylinders now in use, and as high as nine million gallons with the 24 cylinders, when required.

C. McCULLOH,
CHRISTIAN BOSLEER,
WM. BUTLER,
Water Works Trustees.

GENTLEMEN:—I have carefully considered the record of the recent test of your Triple Expansion pumping engine, furnished by the Holly Manufacturing company, of Lockport, New York, together with the contract and specifications under which said engine was furnished, and the resolution adopted by your common council relating thereto, on May 2nd 1890, and respectfully report:

The contract and specifications referred to, call for a Triple Expansion engine, to operate three single acting pumps, having essential dimensions, as follows:

Diameter of high pressure cylinder 20 inches.
Diameter of intermediate cylinder, 29 inches.
Diameter of low-pressure cylinder, 51 inches.
Diameter of pump plungers, 24½ inches.
Common stroke of steam pistons and pump plungers, 20 inches.

This machine is, with a piston speed of 120 feet per minute or 15 revolutions, and with an initial steam pressure of 90 pounds per square inch above the atmosphere is required to pump 6,000,000 United States gallons of water, against a head of 120 feet—exclusive of friction—and, while pumping water, under these conditions, to develop a duty of 120 millions of foot pounds for each 100 pounds of coal burned, the coal consumption being based upon the assumed evaporation of 10 pounds of water per pound of coal, from the temperature of the feed. This is equivalent to the performance of 120 millions of foot-pounds of work for each 1000 pounds of water converted into steam in the boilers, while the engines and pumps are in operation and running at the specified speed, and under the specified pressure. The engine is also required to meet the usual requirements of your city, for its supply of water for domestic purposes and for extinguishing fires.

As constructed, I find a single departure from the specified dimensions, as follows:

The pump plungers are 20 inches in diameter, instead of 24½ inches as required by the specifications.

Six millions of gallons in 24 hours is equivalent to 9.282 cubic feet per second, or to 3.094 cubic feet per second for each of the three pumps.

The area of a section of the 20 inch plunger is 2.182 square feet.

In their late test, the pumps were double acting, the required speed of plunger would be 2.182 feet 1.415 feet per second, but as the pumps are single acting the speed of their plungers must be twice as great, or 2.83 feet per second, which is equivalent to 15.16 feet per minute.

During each revolution of the crank the pump plungers will travel 80 inches or 6.66 feet.

The required number of revolutions of the crank will therefore be 2.83 ÷ 6.66 per minute or 15 revolutions per minute in order to pump the required number of gallons of water in 24 hours or allowing about 2 per cent. for imperfect action of the pumps, the necessary speed of the crankes will be 15.6 revolutions per minute.

The head of water to, against which the water is to be pumped, or the height to which it is to be pumped, is equivalent to 2,313,150.528 pounds per square inch on the pump plungers. The load on each pump will therefore be 2,313,150.528 pounds or 925.26 pounds and on the three pumps 2,775.78 pounds.

Each plunger plunger moves under its load 1.66 feet during each revolution. The work per revolution will therefore be for the three plungers 3 × 2,775.78 = 8,327.34 foot-pounds, and for 15 revolutions 15×8,327.34 foot pounds. This is the required net work of the three pumps per minute.

Now, since 120,000,000 of foot-pounds of work are to be performed by 1,000 pounds of steam, it follows that the net work per pound of steam must be 120,000 foot-pounds.

It follows, therefore, that 1,292,116,225,120,000=25,558 pounds of steam may be used each minute while the engine is running at the required speed and under the specified head of water, or under a pressure of 52.15 pounds per square inch on the pumps. The hourly consumption of steam may therefore be 60×25,558=1,534,680 pounds.

If the three engine, with its 20 inch pump plungers, be run at a speed of 25 revolutions per minute against a head of 120 feet on the pumps and no more than 2,070.48 pounds of steam per hour be used. It will have satisfied the requirements of the contract, both as to ultimate capacity and as to duty.

P. S.—I have not deemed it necessary to say in my report that the load upon the pumps, or the resistance against which they were required to work, could only be obtained by choking down the discharge or obstructing it by partly closing the valve.

This is the usual and only practicable mode of procedure in such cases and requiring the same work on the part of the engine as though the water pumped had been actually lifted 120 feet and discharged into a reservoir.

The Test—On Monday, the 19th inst., at 10 a. m. the test was begun. Arrangements had previously been made for weighing the water supplied to the boilers.

A cylindrical tub, about 4 feet in diameter and 2 feet deep, was placed on the engine room floor in the rear of the engine, from which was led the temporary suction pipe for the boiler feed-pumps. Above this feed tank was placed a platform scale, upon which was balanced a tub having a capacity of about 995 pounds of water. The water was weighed in charges of 950 pounds, each charge being wholly discharged into the lower, or feed tank and the discharge pipe closed before refilling began. The feed water was supplied to the upper tub from the force main at a temperature of 55 degrees.

At the beginning of the test the lower, or feed tank was in full, and the height of the water in the boilers was noted, and marked on the glass gauges.

At the conclusion of the test, at 10 a. m., on the 13th inst., the water was brought to the same height, in the boilers, as at the beginning, and the feed tank was full.

Thirty-two charges of 950 pounds each had been drawn from the upper tub, and 185 pounds from the 33rd charge.

The consumption of weighed water was therefore 32×950+185 = 30,585 pounds in 24 hours or 2,060.41 pounds per hour.

The feed-pumps took more water from the tank than the boilers required, the surplus being returned to the feed tank by a small pipe. Thus a considerable portion of the water taken by the feed pumps was kept in circulation from the tank to the pumps, and from the pumps back to the tank again.

The condensation in the steam jackets, and in the reheating coils of the receivers was tapped off, and joined the feed water, adding a small and uncertain percentage to the water which was weighed. We fix this condensation has been determined, in connection with tests of compound engines, it has been found to vary from 5% per cent. to 10 per cent. of the weight of the weighed feed water.

In this case on account of the third cylinder and re-heating coils, I shall assume the larger percentage of condensation, or 10 per cent.

Increasing the weighted water by 10 per cent. we get, from the probable sum of the weighted water and added water of condensation, from the jackets, (2,060.41+205.00) 2,272.61 pounds per hour.

THE REVOLUTIONS—The readings of the engine counter were as follows:

At 10 a. m., May 13th	582,185
At 10 a. m., May 13th	620,108
Revolutions in 24 hours	37,925
Revolutions per minute, mean	26.34

THE HEAD. The head was composed of three parts as follows:

1. The lift, from the source of supply to the level of the delivery valves.
2. The elevation of the engine room gauge above the level of the delivery valves; and
3. The head, in feet, due to the mean pressure indicated by the water pressure gauge on the engine.

The mean lift, or suction, was measured by 11.32 inches of mercury, or its equivalent; which represents 11.32×1.15 ..... 16.17 feet.

The height of the engine gauge above the delivery valves was..... 31.50 feet.

The mean water pressure, by the engine gauge was 31.08 pounds; equivalent to 31.08×2.3 ..... 78.38 feet.

Mean total head ..... 126.75 feet.

The mean steam pressure for the 24 hours, at the engine, was 95.5 pounds, from which should be deducted a short water column—about 20 inches—equivalent to nearly 0.75 of a pound, leaving, for the actual steam pressure, about 84.75 pounds.

Collecting results, we have, for the 24 hours run:

Mean steam pressure	80.75 lbs.
Mean head pumped against	126.75 ft.
Mean revolutions, per min	26.34
Mean weight of weighted water, and water of condensation in the jackets and re-heating coils, per hour	2272.61 lbs.

Thus it appears:

1. That the mean steam pressure was about ¾ pound per square inch less than the specified pressure.
2. That the mean head pumped against exceeded the specified head by 5.7 per cent.
3. That the mean number of revolutions per minute exceeded the number theoretically necessary by 3.2 per cent., and,
4. That the weighed feed water, plus the added water of condensation from cylinder jackets and reheating coils, exceeded the estimated quantities by 6.8 per cent.

The capacity of the pumps. It follows from the foregoing that the theoretical capacity of the pumps at the mean speed of the trial exceeded the specified capacity by 3.2 per cent. and is 6,192,000 United States gallons in twenty-four hours.

The Duty—Combining the excesses in the mean head, in the mean number of revolutions and in the weight of water accounted for as supplied to the boilers per hour, we get what we may designate as a co-efficient of duty, thus:

$$\frac{1.053 \times 1.032}{1.068} = 1.01941.$$

Which indicates that the actual duty was 1.01941 times the specified duty of 120,000,000 of foot-pounds per 1,000 pounds of water or steam. We thus obtain for the actual duty, 120,000,000 × 1.01941 = 122,329,200 foot pounds.

Gas Consumption and its Cost—The mean hourly rate of gas consumption was 5.212 cubic feet—said to have been under a pressure of 8 ounces. This is at the rate of 20,848 cubic feet per million gallons raised 120 feet, or 173.3 cubic feet per million gallons raised one foot.

At 7 cents per 1,000 cubic feet, the cost of this service—one million one foot—for fuel was 1.16 cents, or a trifle more than 1.17 cents per million gallons one foot high.

Can the 21½ inch plungers be operated to pump 6,000,000 gallons in 24 hours against a head of 120 feet? The sectional area of a 21½ inch plunger is 1.5 times as large as the area of a 20 inch plunger.

In order then to operate the larger plungers against a head of 120 feet, the mean effective steam pressure on the pistons must be 50 per cent. greater than it was during the test. If this increased pressure has at any time been maintained with the 20-inch plungers the question presented is answered practically, and there is no occasion to resort to theoretical consideration or to invoke expert opinion.

On the 14th inst. you all witnessed the five streams which were thrown.

During that exhibition the engine pressure gauge indicated 96 pounds, representing a head above the gauge of 2.3×96=220.8 feet. Adding to this 5.5 feet for the vertical distance between the engine gauge and the delivery valves and 12 feet for the lift, or suction, we get a total head of 238.3 feet.

Thus the actual mean steam pressure on that occasion must have been 1.5×221.76 times as great as would be required to operate the 21½ inch plungers, showing an excess of 166 per cent; sufficient to force water to a height of about 17 feet.

This head ought to throw five streams to a height of over 200 feet, in the city.

The speed required to pump six millions of gallons, with the large plungers will be only 15.6 revolutions per minute.

The works, in the two cases will be measured by the products of the pressure by the revolutions; thus, with 20 inch plungers, work 120×22 = 2640; with 24½ inch plungers, work 120×15 = 2550. The same quantity of steam will therefore do the work in either case, or put all on the case of the larger plungers, the work may be done a little less economically.

The actual duty may be greater than that based upon evaporation of 10 to 1.

During the test the water entering the boilers at a mean temperature of 58 degrees Fahr. It is entirely practicable to construct boilers which will evaporate more than 10 pounds of water from a temperature of 98 degrees, and under favorable circumstances, it is possible to do 11 pounds.

Now, in ordinarily running, five feed waters will be taken from the hot-well at a temperature considerably above 98 degrees and heated by condensation in the jackets and reheating coils, to a temperature of 208 degrees, or even more, each pound of feed water entering the boilers will then require 82 degrees less heat for its evaporation than it would at 98 degrees. The result will be that the evaporation with the same fuel—say one pound of coal—will be increased 8½ per cent above that in the test. It therefore follows that the the duty per hundred pounds of coal, would be 8½ per cent greater than that based upon the evaporation of 10 to 1 under the conditions of the test.

The probable duty under the assumed conditions would be 1.42×120,000,000 = 170,040,000 foot pounds, per hundred pounds of coal.

To accomplish this result—assuming our estimate of the test to be correct—the evaporation, per pound of coal, from a temperature of 180 degrees should be 10.575 pounds.

This is a remarkable duty, the exaction of which is, in my opinion, entirely unreasonable; and the builder who will guarantee it must be a man of more than ordinary courage.

Such a duty is dangerously near the boundary which separates the possible from the impossible, and ought not to be exacted nor guaranteed.

Will the engine meet the requirements of your city? In reply to this question it is sufficient to say that many of you citizens saw the engine running smoothly, on the 10th inst., at a speed of about 6 revolutions per minute. You also saw it running, with equal and even greater regularity and smoothness, on the 12th and 13th at a speed of 26 revolutions. It necessarily follows, that the engines will run in an equally satisfactory manner, at any speed between 6 and 26 revolutions, or while pumping water at any rate between 1½ millions and 9 millions.

In my opinion, the engine may be run, with entire safety, up to 30 revolutions per minute; at which speed it will pump at the rate of nearly 7 millions in 24 hours.

It is a remarkable fact that, during the last 23 hours of the test, the speed of the engine ranged from 26.11 to 26.92 revolutions per minute; and that, during nine consecutive periods of 32 minutes each, the speed was confined to 26.26 revolutions per minute.

With the larger pumps, and with more steam, at a somewhat higher pressure, I believe this engine capable of pumping 9 millions of gallons. Thus the range of capacity may be widened, so as to include any desired quantity of water daily, between 1½ and 9 millions of gallons.

The fact that you have been provided with two sets of plungers, of different sizes, I regard as most fortunate, enabling you, as it does, to meet your present moderate requirements, and to keep pace with the gradually increasing requirements, due to the increase in population, until the latter shall have reached more than 100,000 souls.

Aside from the question of duty, you are to be congratulated upon having procured, for the use of your city, a machine so satisfactory in its action, so perfect in its mechanical details and in its regulation, and having such a remarkable range of capacity.

In closing, I desire to commend the zeal, certainty and care of Messrs. Scheid, Meyer and McKendry, who kept the various records during the test. Without relief, also to acknowledge the thoughtful and generous provision made by you for our convenience and comfort.

All of which is

Respectfully submitted,
D. M. GREENE.

Troy, N. Y., May 21, 1890.

An ordinance fixing the salaries of officers and employees of the city of Fort Wayne for one year from May 1890 to May 1891.

Section 1. Be it ordained by the common council of the city of Fort Wayne, that the salaries of the officers and employees of said city for the ensuing year be, and the same are hereby fixed as follows:

To the mayor the sum of ($2,500.00) twenty-five hundred dollars and no fees per annum.

To the city clerk the sum of ($3,000.00) three thousand dollars and no fees per annum, and said clerk shall perform every duty pertaining to his office, including the making of the tax duplicates for the year 1890, and also index for council proceedings.

To the city treasurer the sum of ($2,500.00) twenty-five hundred dollars per annum and fees on all taxes collected, other than those due for the current year.

To the city assessor the sum of $900 per annum.

To each and every deputy assessor the sum of $2 per day of eight hours, for the time he may be actually employed.

To the street commissioner the sum of $1,200 per annum.

To the civil engineer the sum of $1,400 per annum.

To the city marshal the sum of $1,200 per annum and no fees.

To the city attorney the sum of $1,500 per annum and no fees.

To the chief of fire department the sum of $1,200 per annum.

To the trustees of the water works the sum of $1 00 for each trustee per annum, for all services performed by them as such trustees.

To the market master the sum of $200 per annum.

To the assistant civil engineer the sum of $85 per month.

To the secretary of the board of health the sum of $500 per annum.

To the chief of police the sum of $1,000 per annum and no fees.

To each and every regular patrolman the sum of $65 each and no fees per month of actual service.

To the lieutenant of police the sum of $75 and no fees per month.

To the night police office clerk the sum of $40 and no fees per month.

To the day clerk of the police office the sum of $25 and no fees per month.

To the weighmaster the sum of $65 per month.

To the supervisor of streets the sum of $2 per day of actual service.

To the poundmaster the sum of $1.25 for each day of service, and fees of 25 cents for each animal impounded and fine collected.

To each member of the common council the sum of $2 for each attendance upon a meeting of the council, and $2 75 per day for committee duties when actually engaged, provided no member of the common council shall receive for one year for his services more than $150.

Sec. 2. All salaries, annual, monthly and per diem shall be paid in city orders as at par.

Sec. 3. All ordinances in conflict with this ordinance be and the same are hereby repealed.

Sec. 4. This ordinance shall be in force and take effect from and after its passage.

Sec. 5. The salaries of said mayor, clerk, city marshal, city attorney, chief of police, patrolman and lieutenant, are fixed as above and payable to said officers, that they and each of them will cause to be paid into the city treasury for the benefit of said city, each and all fees to which they would otherwise be entitled as officers and servants of said city, and all fees to which they would be entitled under the criminal laws of the state and under the ordinances of said city, or as witnesses before the mayor.

Sec. 6. Done at the council chamber of the city of Fort Wayne, this 27th day of May, 1890.

D. L. HARDING, Mayor.
RUDY C. REINEWALD, City Clerk.

An ordinance (which is recorded in full in ordinance book 5, page 117,118,119) was read a first and second time and on motion the rules were suspended, and the ordinance read a third time now, and a motion that the ordinance now pass prevailed by the following vote:

Ayes, 17, viz: Councilmen Boltz, Cody, Cranbelagrance, Gruber, Gordon, Hilbrecht, Huser, Hilgeman, Meyer, Meyer, jr., Michael, Ofenloch, Schefler, Scheid, Smith and Vordermark. Nays, none.

GOT THE "PHAT."

The success that has been achieved by the Hon. Edwin Cowles, of the Cleveland *Leader*, shows how important it is that a great editor should know every detail of the printing business. One day, shortly after the *Leader* began to grow famous, a compositor who had been with the paper from the start met Mr. Cowles on the stairway and thus addressed him:

"Mr. Cowles, I have decided to quit you."

"Why, what's the trouble?"

"No trouble at all, except that I am not making money enough."

"Not making money enough!" Mr. Cowles exclaimed. "Why, how much money do you want? You are getting more than your share of 'phat,' I am sure."

"I haven't seen any 'phat' lately, Mr. Cowles."

"The deuce you haven't! Didn't you set up 'Cæsar' three times yesterday?"

"Yes, but what of that?"

"What of that!" Mr. Cowles angrily exclaimed. "What of it! Why, you lifted three diphthongs, that's what. Can you ask for anything 'phatter' than to lift up two letters at once?"—*Arkansaw Traveler.*

NOT A PIMPLE ON BABY.

Baby one year old. Bad with Eczema Hair all gone. Scalp covered with eruptions. Cured by Cuticura. Hair splendid and not a pimple on him.

Cured by Cuticura.

I cannot say enough in praise of the Cuticura Remedies. My boy, when one year of age, was so bad with eczema that he lost all his hair. His scalp was covered with eruptions, which the doctors said was scall-head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the Cuticura Remedies, and, I am happy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the Cuticura Remedies to mothers as the most speedy, economical, and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing.

MRS. M. E. WOODSUM, Norway, Me.

Fever Sore Eight Years.

I must extend to you the thanks of one of my customers, who has been cured by using the Cuticura Remedies, of an old sore, caused by a long spell of sickness or fever eight years ago. He was so bad he was fearful he would have to have his leg amputated, but is happy to say he is now entirely well—sound as a dollar. He requests me to use his name, which is H. H. Cason, merchant. JOHN V. MINOR, Druggist, Gainesboro, Tenn.

We have been selling your Cuticura Remedies for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of scrofula I ever saw was cured by them.

Dyspepsia

Makes the lives of many people miserable, causing distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels. Dyspepsia does not get well of itself. It requires careful attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet efficiently. It tones the stomach, regulates the digestion, creates a good appetite, banishes headache, and refreshes the mind.

Distress After Eating **Sick Headache** **Heartburn** **Sour Stomach**

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would have a faint or tired, all-gone feeling, as though I had not eaten anything. My trouble was aggravated by my business, painting. Last spring I took Hood's Sarsaparilla, which did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

Some women imagine that nothing will stand the peculiar breaking strain of their forms on corset "bones."

They don't know Kabo, which neither breaks or kinks.

If Kabo breaks or kinks in a year, go back to the store at which you bought your corset and get your money again, every cent of it.

If the corset doesn't suit you, after wearing a week or two or three, go back for your money.

There's a primer on Corsets for you at the store.

The Standard.

"I regard Hood's Sarsaparilla as having passed above the grade of what are commonly called patent or proprietary medicines," said a well known physician recently. "It is fully entitled to be considered a standard medicine, and has won this position by its undoubted and by the many remarkable cures it has effected. For an alterative and tonic it has never been equalled."

Worth Hundreds of Dollars.

My wife only used 2 bottles of "Mother's Friend" before her third confinement. Says she would not be without it for hundreds of dollars. Had not half as much trouble as before. THE MUTUAL LIFE INSURANCE COMPANY,

OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

E. C. POTTER & CO.

No. 799. New York, Dec. 24, 1889.

BANK OF NEW YORK.

National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ---------- LARS.

$578,345 00/100 — 29 DEC. 28 1889. — CERTIFIED. Payable through New York Clearing House, N. Y. A. — E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

ASSIMULATES DEATH!

And Hides in the Woods for Six Months so That His Wife Can Collect an Insurance.

RALEIGH, N. C., May 25.—Twelve months ago James Dillon, a well-known citizen of Tyrrell county, insured his life for $3,000 in the Connecticut Mutual Life Insurance company. Some time after he fell from a boat half a mile from shore and yelled loudly for help to a man a quarter of a mile away. When the man responded Dillon secretely swam ashore and could not be seen. The man whose assistance he asked supposed he was drowned and was perfectly willing to swear to it. Notice of Dillon's death was sent to the company. It refused to pay the insurance. Action was brought by Dillon's wife and the case stood for trial at the court last week. The widow alleged that he was drowned.

Ten day's ago a body was found near the place where he had been seen to sink in the water. The body was identified by twenty-five persons as that of Dillon. At court, counsel for the wife took a non suit because the body had not been found. There is no doubt that the company would have paid the money, but last Friday, to the surprise of every one, Dillon, himself, returned, safe and sound, to Columbia. His statement is most remarkable. He says he swam ashore the day he overturned the boat, put his hat in it, and left the boat half full of water. He determined to hide in the woods so that his wife could get the insurance money. He kept in the great swamps for five months, when he found the body of a drowned man floating in the Alligator river.

He removed the hair from the head so as to make it bald, and taking his own whiskers, put them in the decomposing flesh of the corpse. He knocked out two of the front teeth of the dead man and removing the clothing from the corpse, dressed it in the clothes he had worn on the day of disappearance. At night he conveyed the body to the place where he was supposed to have been drowned. Subsequently hearing of the non-suit he thought it put an end to his claim and that there was no hope of collecting the money and he returned home.

ALABAMA'S POLITICAL POT

Is Boiling Hot—The Democratic State Convention To-Day.

MONTGOMERY, Ala., May 28.—Alabama is in the midst of the bitterest political campaign since 1874. The state democratic convention met at noon to day. There are five candidates for governor in the race, Col. Thos. G. Jones, of Montgomery; Capt. Jos. F. Johnston, of Birmingham; Capt. James Cook, of Jacksonville; Judge Wm. A. Robertson, of Huntsville, and R. F. Kolb, of Eufaula, the present agricultural commissioner of the state and the Farmers' alliance candidate for governor. He has posed as the farmers' candidate and expects to win on that ticket.

The convention is composed of 526 delegates and it is generally conceded that Kolb will have over 200 votes on the first ballot, which puts him ahead of any of the others. War has been made on Kolb by the democratic press and leaders on account of his efforts to arraign the farmers against all other classes. The alliance in this state is over eighty thousand strong, and the majority of the members will support Kolb, and if the order is strong enough to nominate him, he will be the next governor.

MAY HAVE NEEDED IT.

Indianapolis "Shook Up" by Nine Earthquake Shocks.

INDIANAPOLIS, May 28.—Earthquake shocks were felt here at an early hour yesterday morning. Fifteen occupants of a frame building at the Vandalia transfer yards experienced an unusual shock, accompanied by a shaking of the building and a sound like the rushing of a volume of water beneath the building. The first shock was swiftly followed by a second and so on until nine distinct shocks had been felt by the then thoroughly frightened inmates. A peculiar feature of the disturbance was its being heard by yard men some distance away from the building and they also thought they could discern a sound similar to the rushing of water. It is supposed a large subterranean body of water lying underneath that portion of the city had been greatly agitated by some unknown cause.

BLUE AND GRAY

Mingle Together in a Re-union at Vicksburg—The Blue Given the Post of Honor.

VICKSBURG, Miss., May 28.—The reunion of the blue and the gray yesterday was a success, and was attended by thousands of people. In the parade the Grand Army of the Republic occupied the post of honor, followed by the confederate veterans. Speeches were made by Governor Stone, of Mississippi, and a number of prominent northern and and southern veterans.

The Weather.

WASHINGTON, May 28.—For Indiana: Increasing cloudiness and rains, with local storms; warmer to day; cooler by Thursday afternoon; southerly winds.

MARY DIDN'T SPEAK.

An Equal Suffragist Advocate Prevented From Holding a Meeting.

TYLER, S. D., May 28.—Mrs. Mary Seymour Howell, of New York, who, in company with Susan B. Anthony, is working in the interest of equal suffrage was here yesterday, with the expectation of delivering a lecture last evening. On her arrival she was met by a delegation, mostly Russians, and told that they did not want to hear any woman preach, and she would not be allowed to speak in the school house. This aroused the indignation of other citizens, and they determined to open the school house to her. The situation, however, became so threatening as evening approached, that she was afraid to remain in town, and departed for Parkston. **Feeling runs very high.**

SMALL POX IS THERE.

The Dreaded Malady Raging in Dansville, New York.

MOUNT MORRIS, N. Y., May 28.—At a meeting of the village board of health yesterday an ordinance was passed forbidding any person belonging in Dansville from visiting this village, or any person from here going to Dansville during the prevalence of the small pox in that village under a penalty of $1,000 or six months imprisonment. The small pox is reported spreading in Dansville, and four deaths are reported.

SPRINGFIELD, Ill, May 28.—There is an epidemic of diphtheria at Maringo, McHenry county. The state board of health has information of three deaths in one family. The cause of the disease is supposed to be a contaminated water supply.

MAY HAVE ELOPED.

A Handsome Blonde Missing From Her Home.

MADONA, Ill., May 28.—Residents of the village of Industry, this county, are greatly excited over the mysterious disappearance of Ella Corpoll, a handsome young woman, who left home ten days ago to visit a sister at Bowen, Ill. She was traced on the Wabash railroad to near Keokuk, where all clues were lost. A reward of $50 is offered for information as to her whereabouts. She is about twenty years of age and a blonde.

WENT RAVING MAD

Because His Wife Ran Away With Another Man.

DETROIT, May 28.—Alvis Missches brooded so much over his wife's running away with Adam Bloch, a supposed friend, that he went insane yesterday and had to be locked up to prevent him from murdering his seven children. He is raving mad, and spends his time cursing Bloch and threatening to kill his children. The police are looking for Bloch.

IT IS NOT TRUE.

The Manhattan Mutual Fire Insurance is not in a Bad Way.

MINNEAPOLIS, Minn., May 28.—President C. H. Spencer, of the Manhattan Mutual Fire Insurance company of New York, denies absolutely that the company is in a bad way and liable to collapse. He said the report was due wholly to statements by Fitzgerald, who had sworn vengeance for having his head cut off as manager.

NATIONAL CONFERENCE.

The Greenbackers Will Meet at Indianapolis, August 27.

INDIANAPOLIS, Ind., May 28.—A call was issued yesterday for a greenback conference to be held in Tomlinson hall, Indianapolis, at noon, Wednesday, August 27.

Wants to Settle.

ST. LOUIS, Mo., May 28.—Mansfield King, the man who robbed President Moffat, of the Denver bank, of $21,000, says he has made a proposition to the bank officials to return the money and pay all the expense they have incurred in the matter providing they agree not to prosecute him. Nothing has been heard from Denver in regard to the acceptance of the proposition as yet.

Badly Wrecked.

COLUMBIA, S. C., May 28.—Passenger train No. 51, which left here on the Atlantic Coast line at 10:25 Monday night for Wellington, was badly wrecked fifteen miles from Columbus. Only one hurt.

Prohibited the Sale of Liquor.

WASHINGTON, May 28.—Speaker Reed has temporarily prohibited the sale of liquor in the house restaurant. This may be modified, however, to permit drinks to be served at tables.

Lee's Monument.

RICHMOND, Va., May 28.—Flags and bunting envelop the houses along the principal streets to-day, the occasion being the Lee monument unveiling, which takes place to-morrow.

Prohibition Convention.

SYRACUSE, N. Y., May 28.—The "state amendment convention" of all prohibition societies of the state of New York, was called to order by Dr. H. Mann, of Brooklyn, this morning.

DECKED WITH FLOWERS!

The Floral Tributes That Greeted Randall's Successor When He Entered Congress To-day.

WASHINGTON, May 28.—Two desks in the house of representatives were hardly large enough to hold the floral tributes that greeted the eyes of Charles A. Vaux, of Philadelphia, the successor to the late Samuel J. Randall, when he entered the house this morning, preparatory to taking his oath as a member of congress.

The principal piece was a magnificent representation in roses and immortelles of the coat of arms of the city of Philadelphia, presented by the board of directors of the eastern Penitentiary, of which Mr. Vaux was a member. Several bouquets of bride, and other varieties of roses were also among the tributes received.

Speaker Reed was in his chair and called the house to order at 12 m. Mr. O'Neil, of Pennsylvania, presented the credentials of Mr. Vaux, Mr. Randall's successor as representative from the third district of Pennsylvania, and escorted him to the bar of the house, where he affirmed. He took his seat amid applause. Mr. Vaux was the recipient of many congratulations and friendly greetings.

The house passed a number of bills and did routine business.

It is the intention of the house leaders to have the house adjourn over from Thursday until Monday, on account of Decoration day.

In the senate to-day after transaction of routine business the senate bill subjecting imported liquors to the law of the several states was again taken up, Mr. Morgan spoke in opposition to the measure, basing his argument on constitutional grounds.

BRUTALLY ASSASSINATED.

A Mississippi Merchant Meets a Cruel Death—Other Crimes.

JACKSON, Miss., May 28.—Mr. A. M. Kimball, a prominent merchant of this city, was assassinated near his residence early yesterday morning. The killing was done with a stick, or some blunt instrument. The key to his store was missing and the store had been broken open, but nothing missing could be discovered. One theory is that Kimball caught burglars in the act of robbing his store and was killed in the fight that followed.

ST. LOUIS, Mo., May 28.—Henry Hall, a farm hand working near Silston, Mo., was shot dead yesterday by a fellow farm hand named Jacob Haines. The men had apparently been close friends.

SPRINGFIELD, Ill., May 28.—Police Officer Kilion Laurer last night shot and instantly killed Wm. Koch, aged 19 years. Koch, who had been arrested by the officer for a misdemeanor, started to run away.

WHITE CAPS

Commit Their Depredations in Southern Indiana.

LOUISVILLE, Ky., May 28.—A band of White Caps, thirty in number, visited Corridon, Ind., at 1 o'clock this morning and proceeded to the house occupied by Lucy Noyes and Jane Flay, two women of questionable reputation.

The women were dragged from bed, taken to the edge of the town, tied to trees and flogged until both had fainted from pain. Their thongs were then cut and the white caps departed, leaving their victims where they had fallen, at the foot of the trees, both insensible. Besides their general bad character, the two women were suspected of having set recent fires at the fair grounds near Corridon.

COLORED CONGREGATION.

A New Church Society Organized in This City.

Last Sunday a new colored congregation was organized in this city to be known as the Second Baptist church. The meeting was held at the W. C. T. U. headquarters on Harrison street, where, if suitable arrangements can be effected, services will be held regularly each Sabbath at 10:30 a. m., and 7:30 p. m. William Ridley will officiate as pastor.

ANDERSONVILLE PRISON.

The Stockade Purchased by the Georgia G. A. R.

AMERICUS, Ga., May 28.—The Andersonville prison stockade has been purchased by the Georgia encampment, G. A. R., acting for the national body.

A Big Thief.

WATERBURY, Conn., May 28.—An investigation of the books of the Smith & Griggs company show that Geo. Roberts, the chief bookkeeper, who was arrested several days ago for embezzlement, has stolen in all, $30,000. He began stealing in 1871, just after he entered the employ of the concern, and since then has taken large sums each year.

Instantly Killed.

SILVER CITY, N. M., May 28.—Theo. Lyons, of this city, shot and instantly killed John R. McManigle last night. Lyons is a member of the firm of Lyons & Campbell, who are among the heaviest cattle owners in southern New Mexico. He claims to have found McManigle and Mrs. Lyons in a compromising position. All are prominent people.

HONORS TO THE DEAD.

An Outline of the Program That Will be Arranged for Decoration Day.

The committee of arrangements for the exercises of Memorial day will hold a meeting to night at Sion S. Bass post hall to complete the program. The indications are that about thirty societies and organizations will turn out. The city officers and common council will appear in a body, and also the police force.

The following organizations, among others, will be in the parade: G. A. R. posts—Sion S. Bass, Anthony Wayne and George Humphrey; Union Veteran Legion, Sons of Veterans, Fort Wayne and Summit City lodges of the Ancient Order of United Workmen, Phœnix, Fort Wayne and Uniform Rank lodges Knights of Pythias; Emmett Commandery U. B. L., Knights of St. Charles, Wayne Commandery U. B. L., Patriarch Militant, Patriarchal Circle, Carpenters union and postoffice employes.

The City band and the First Regiment bands will discourse strains as the procession moves. The line of march will be over the principal streets along the line. The procession will move about 1 o'clock p. m. and after the march there will be appropriate exercises at Lindenwood. The merchants will be requested to close their doors in the afternoon. The city and county offices will be closed and business generally suspended as Decoration Day is a legal holiday.

THE CARPENTERS.

The Seriousness of the Situation Unless the Difficulty is Settled.

The difficulty between the carpenters and the building contractors of the city is assuming a serious phase, and unless something is done to prevent a wider breach it may result in a general tie up of the building trade in Fort Wayne. At a joint meeting of the carpenters and the Trades and Labor council last night the situation was discussed, and some of the speakers went so far as to advocate a strike of all the unions engaged in the industries in order to bring the master builders to terms but older and wiser heads deprecated such action and said it ought only to be adopted as a last resort. It was, decided, to call a meeting of the various trades unions and lay the matter before them for consideration.

In conversation with a prominent member of one of the labor unions today, that gentleman said to THE SENTINEL reporter: "Yes, a general tie-up of the building trades is possible as a result of this trouble. A general strike need not be ordered. The thing can be brought about in another way. The brick masons, the hod carriers, the plasterers, the painters, the tinners, the plumbers and other trades are all dependent upon the work of the carpenters. The carpenters must do their work before the other trades can proceed, and if this is not done you can easily see how building must come to a stand-still. The carpenters have made many concessions and I know the general sentiment is now that they will stand firmly for their remaining rights. We have already made many concessions, but were we to concede the points now demanded by the master carpenters it would amount to a virtual giving up of our organization. They claim the right to have a union and they ought certainly to concede us the same right."

A tinner's and sheet iron workers union was organized last evening. The plasterers' union will hold a meeting this evening and discuss the disagreement with the master builders.

BOY HURT.

A Horse Upsets a Wagon, Seriously Injuring Arthur Stine.

Arthur Stine, a youth in the employ of B. L. Auger, the florist, was thrown from a wagon and quite seriously injured this morning. While he was driving along South Broadway near Nestel's nursery, the vehicle collided with a sand wagon, and the horse becoming frightened, turned short and upset the wagon. The young man's lower limbs were injured, one of them being fractured. He was conveyed to his home on Williams street where Dr. Myers put a plaster of paris bandage on the broken limb.

THREE ACCIDENTS.

Brakeman Reed Badly Squeezed—Kicked by a Horse—Finger Mashed.

W. D. Reed, a brakeman on the Fort Wayne road, was badly squeezed between the deadwoods and probably fatally injured. Internal fumble. The man lives at 331 Hoagland avenue, where he was taken to day.

George James, living on South Wayne avenue, was kicked in the face by a horse to-day. Bad injury, but no fracture.

C. Rodenbeck, boiler-maker in the Pittsburg shop, had a finger mashed today.

A Card of Thanks.

The family and friends of the late Mrs. Joseph Grothaus, the daughter of Barney Roth, desire to return thanks to friends and neighbors, and to Mr. John H. Bass, Miss Rohyans and Miss Amelia Farrel for handsome floral decorations.

THE EIGHT-HOUR FIGHT.

Over Forty Thousand Carpenters Said to Have Been Benefited by It.

In conversing last evening with a prominent member of the Brotherhood of Carpenters on the general effect of the movement of the trade for an eight hour day throughout the country, that gentleman said to a SENTINEL reporter:

"Up to date we have suffered no defeat. The movement for shorter hours in our trade caused 141 strikes, involving 208 unions and 51,852 men—unionists and non-unionists. They resulted as follows: In twenty-seven cities and towns the eight-hour day was won for 23,355 men; in seventy-two cities and towns we established the nine hour rule, benefitting 14,180 men. The wages of over twenty-six hundred men were advanced. The principal points where the eight-hour rule was adopted are New York, Brooklyn, Chicago, Milwaukee, St. Louis, Denver, San Francisco, San Antonio, Tex., and Indianapolis. Some non-union carpenters sided with us and did excellent work. The strike cost our general body only $25,028 and the local unions about the same; twenty-four strikes are still in progress. The struggle added forty-six new unions, with 11,241 members, to the Brotherhood, which now has 622 branches and 67,200 members."

MASTER MASONS MEET.

Representatives of Twenty-five Thousand Members Meet at Indianapolis.

Grand Lodge, F. and A. Masons of the state of Indiana, met at Indianapolis yesterday, with Thomas B. Long, of Terre Haute, grand master, in the chair, and all the grand officers in their places, except Roger Perry, grand tyler, who is confined to his bed by sickness. This is the sixty-ninth annual meeting, and is the seventy-third year of the grand lodge. A convention to organize the grand lodge was held at Corydon, December 3, 1817, and the grand lodge was organized and first officers elected and installed at Madison, January 13, 1818. The grand lodge has been presided over by forty grand masters, fifteen of whom are now living. Hon. A. C. Downey, of Rising Sun, is No. 20 in the list of past grand masters, and ranks all those living. The grand lodge has had fourteen grand secretaries, only two of whom are now living.

Grand Master Thomas B. Long, of Terre Haute, delivered the annual address.

The Grand Treasurer Martin D. Rice, reported a balance of $13,175.67 on hand. Wm. H. Smythe, grand secretary, reported cash receipts, including balance on hand, last year, $37,086.06, and the expenditures, $2,553.45; and receipts and disbursements to the Clay county miners $8,705.85. There are at present 23,896 affiliating Master Masons in the state. The present number of chartered lodges is 464, and the average membership fifty one. Terre Haute lodge, No. 19, has 325 members, and is the largest lodge in the state.

During the year the Grand Master granted dispensations for the organization of lodges of Mount Vernon, Sidney, Canaan, Hanover and Carthage. After the submission of the reports the Grand Master appointed the standing committees. The lodge will adjourn to-day.

WARM DISCUSSIONS.

Councilmen Boltz and Cody Fight Against the Steam Roller—The Police Commission Talks.

There were two warm discussions at the council chamber last night. One was caused by Councilmen Cody and Boltz urging that the new steam roller be not accepted. After fully three-quarters of an hour's argument, City Attorney Colerick calmly stepped before the body and informed them that the machine had already been accepted by a legally written contract and must, of course, be paid for. The silence then, was painful, and the roller was accepted.

Another lively and interesting discussion was one caused by Councilman Boltz objecting to a section in the police commissioner's report wherein Officer Eric Richter was suspended from the police force for thirty days. Mr. Boltz wanted to know why Officer Stoll was not suspended too. Both were eating frogs from the same dish, he said, and drinking wine from the same bottle at the Globe restaurant in company with Lieutenant Leonard Fuchslocher, who was discharged from the force. This was too much for some of the police commission who simultaneously jumped to their feet. Councilman Michael insisted that certain affidavits relating to the case be read to the council to show that the members of the police board were honest in their action. Councilman Gordon, also a member, addressed the meeting in emphatic and eloquent terms. Councilman Meyer, a member, demanded that an investigation be made in Stoll's case and Gordon forthwith filed a resolution demanding that Mr. Boltz produce certain testimony to bear on the case, which resolution was adopted.

There two resolutions took nearly as many hours time.

Hon. Jack Landers, of Indianapolis, is in the city.

HER LIFE EBBS AWAY!

Mrs. John Smith Dying From Blood Poisoning Caused by an Injury and "Baby" Will be Motherless.

In a house on the Godfrey farm southwest of the city dwells a dairyman named John Smith, his wife and several children. In this house the wife and mother lies on her death bed, while in the arms of a nurse rests a babe, born last Sunday.

Four weeks ago Mrs. Smith fell through the porch floor at their home and sustained a fracture to her lower limb below the knee, which injury was unattended by a physician until last Sunday when her healthy baby boy was born. The physicians at that time found that the limb was mortified and they recommended amputation at the hip be made as the only possible means of saving the patient's life. This was objected to and now Mrs. Smith is suffering the tortures of a slow death by blood poison. Had the amputation of the limb been performed at the proper time the life of the dying woman might have been saved.

VICTORY FOR OUR BOYS.

The Fort Waynes Win the Second Game With Bluffton—Other Games.

Yesterday at Bluffton, the base ball club of that place was beaten by Fort Wayne by a score of 15 to 13. The game was a poor one, but served to buoy up the spirits of our enthusiasts, who were crushed by the previous day's defeat. The battery for Fort Wayne was McCarthy and Ferris. Cates and Hines were in the points for Bluffton, but after the third inning Aydelotte was called in to pitch. In the sixth inning our boys succeeded in making six runs.

The score was as follows:

Fort Wayne.....	2	2	5	0	0	6	0	0	15
Bluffton.....	4	2	0	0	5	0	0	2	13

Batteries—Cates, Aydelotte and Hines; McCarly and Ferris.

Bases on Balls—By Cates, 5; by Aydelotte, 1; by McCarty, 2.

Base Hits—Fort Waynes, 10; Bluffons, 14.

Errors—Fort Waynes, 11; Bluffton, 10.

Two-base Hits—Bruton, Reeder 2, Ogden and Cates.

Three-base Hits—Roseker 2.

Struck Out—By McCarty, 5; by Cates, 3; by Aydelotte, 2.

STATE LEAGUE.

Elkhart won of Marion in thirteen innings yesterday by a score of 7 to 5; Kokomo defeated Peru by a score of 18 to 6; Anderson was defeated by Muncie by a score of 7 to 0.

THE BIG GAMES.

Brotherhood—At New York, New York 14, Cleveland 2; at Philadelphia, Philadelphia 2, Buffalo 9; at Brooklyn, Brooklyn, 17, Pittsburg 7; at Boston, game postponed on account of rain.

National League—At New York, New York 4, Chicago 2; at Philadelphia, Philadelphia 8, Pittsburg 1; at Brooklyn, Brooklyn 4, Cleveland 1; Boston Cincinnati game postponed on account of rain.

American Association—At Rochester, Rochester 4, Toledo 7; at Syracuse, Syracuse 2, Louisville 3; at Philadelphia, Athletics 10, St. Louis 8; second game, Athletics 10, St. Louis 8.

NOTES.

Don't discourage our club.

Gallagher will play again to-day.

Fort Wayne is getting several new players.

Muncie and Fort Wayne at league park to-day.

There was a poor attendance at Bluffton yesterday.

Manager Billy Meyer is thirty-six years old to-day.

The game between the two bank nines will draw quite a crowd on Decoration Day.

O'Brien Conway and Daniel Donohoe will be the battery for the Irishtown base ball nine.

Muncie will play here again to-morrow. Bluffton will play two games here on Decoration day, and Anderson will be here Saturday and Monday.

The Standards were the victors in a game of ball played with the Weil streets last Sunday, by a score of 16 to 9. Batteries, Standards, Jauls and Smith; Weil streets, Ower and Starke.

The batting order in to-day's game is as follows: Allen, third base; Quirk, second base; Scott, first base; Bruton, pitcher; Ferris, catcher; Downing, short stop; Ellery, left field; Gallagher, center field; Malone, right field; bench, McCarly and Cain.

Manager Meyer and Captain Scott have signed a star pitcher named Wheeler, of Brooklyn, N. Y., who is expected to arrive here to-morrow. Wheeler is a left-handed twirler and played in the Atlanta and New Jersey league, where he got a great reputation.

The game at Muncie Monday, which resulted 2 to 0 in favor of Anderson, was protested by the Muncie team on the ground that Hemming, Anderson's pitcher, was a Brotherhood man, and the umpire instructed all stakeholders to hold money until settled, which was done to day by Nick Young, of the National league, ruling that Hemming's work was legal. The backers of the Muncie team lose heavily. The game was a fine one. A telegram received from the secretary of the State league, says that Hemming has not been signed and the game can not count.

J. L. Piper and eight others asked to have the alley between Montgomery and Lewis street graded from Clay street to Monroe street. Referred to the committee on streets.

George W. Schiffer and thirty others asked the council to have the sidewalk from Harmer to Hanover street paved with cedar blocks. Referred to the committee on streets.

C. P. Parker asked to have a twelve-inch clay pipe sewer constructed on the north side of Berry street commencing at the fifteen-inch sewer on Fairfield avenue, thence east along Berry street to Hoagland avenue. Referred to the committee on sewers.

Henry Hoffman and four others asked that a fifteen inch tile pipe sewer be constructed on Poplar street. Referred to the committee on sewers.

REPORT OF WATER WORKS SUPERINTENDENT.

His Honor, the Mayor, and gentlemen of the Common Council:

We submit herewith, for your consideration the report of Prof. D. M. Gilmore, Prof. Nowland and the gentleman who was employed to help the latter in the test of the pumping engines recently put into operation in the water works pumping house. The report is explicit as regards the capacity of said engines, and the ability of the pumps to work with the fluids mentioned in said report. We are pleased with the capacity of the pumps both in regard to economy and quality. We would recommend the adoption of the report and the acceptance of the pumps from the Holly Manufacturing company, based upon the tests examined by the expert and compared with the capacity of the pumps both in regard to economy and quality. We would also recommend

Some women imagine that nothing will stand the peculiar breaking strain of their forms on corset "bones."

They don't know Kabo, which neither breaks or kinks.

If Kabo breaks or kinks in a year, go back to the store at which you bought your corset and get your money again, every cent of it.

If the corset doesn't suit you, after wearing a week or two or three, go back for your money.

There's a primer on Corsets for you at the store.

The Standard.

"I regard Hood's Sarsaparilla as having passed above the grade of what are commonly called patent or proprietary medicines," said a well known physician recently. "It is fully entitled to be considered a standard medicine, and has won this position by its undoubted and by the many remarkable cures it has effected. For an alterative and tonic it has never been equalled."

Worth Hundreds of Dollars.

OF NEW YORK, SECURES IT.

Nearly $800,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five DOLLARS.

29 DEC 28 1889.

CERTIFIED. Payable through New York Clearing House, N. Y. A.

E. C. POTTER & CO.

—E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son in law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York that they willingly entrusted to its care nearly five-eighths cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in mercantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the Bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.
